A: It lists the cats involved). Also including bonus trivia in the form of "Stuff They Should Have Taught Us in School" facts (did you know a sneeze can travel up to 100 MPH?), this A+ collection will amuse anyone facing down a test as well as those happy to have the classroom behind them.

From the same hilarious wellspring of failure as the bestselling F in Exams and F for Effort comes this all-new collection of inventively wrong—yet totally real—test responses by students who don't know the answer, but come up with something better instead. Featuring crucial academic subjects including English (Q: Name a key theme in Madame Bovary; A: Cows), Geography (Q: Where can you find the Andes?; A: Google Earth), Science (Q: Describe the properties of a meteor; A: An animal that only eats meat) and more, F this Test rounds out the curriculum with an extra-credit section for those tricky elective courses, and demonstrates that it's more fun to laugh when faced with an absolute fail.

Why did the banana go to the doctors? Because he wasn't peeling very well! Proving the age-old maxim that its in the way that you tell them, Dads for the best part of forever have always been renowned for being truly god-awful joke tellers. Whether its telling them at the wrong moment, misremembering the punchline or it just simply being one of those jokes that were terrible to begin with, Dads are an embarrassment to the whole family when it comes to trying to tell jokes. The VERY Embarrassing Book of Dad Jokes is full to the brim with jokes that only your dear old Dad would dare say jokes that will make you groan, sigh ... and then probably make you groan again. Dads take great pleasure in these kinds of jokes and some of them are so rubbish they actually blossom into proper rib-ticklers but dont tell your dad that, itll only encourage him!

What if a book didn't just tell you how to think or what to know, but rather encouraged you to think for yourself? What if there was a book that focused on asking questions instead of just answering them? The Book of What If?? does just that! What if you lived on a floating city? What if politicians were kids? What if broccoli tasted like chocolate? What if you could explore outer space? By asking these fun, open-ended questions, this book fosters greater critical thinking skills and gives kids a space to interact by breaking out a notebook to draw or write out their personal reactions, or engage in entertaining exercises with family and friends. Plus, sidebars deepen the investigation with peer-to-peer insights, historical and current profiles, real-life examples, and more, making for unlimited learning opportunities!
