This volume unifies a wide breadth of interdisciplinary studies examining the expression of motion in Slavic languages. The contributors to the volume have joined in the discussion of Slavic motion talk from diachronic, typological, comparative, cognitive, and acquisitional perspectives with a particular focus on verbs of motion, the nuclei of the lexicalization patterns for encoding motion. Motion verbs are notorious among Slavic linguists for their baffling idiosyncratic behavior in their lexical, semantic, syntactical, and aspectual characteristics. The collaborative effort of this volume is aimed both at highlighting and accounting for the unique properties of Slavic verbs of motion and at situating Slavic languages within the larger framework of typological research investigating cross-linguistic encoding of the motion domain. Due to the multiplicity of approaches to the linguistic analysis the collection offers, it will suitably complement courses and programs of study focusing on Slavic linguistics as well as typology, diachronic and comparative linguistics, semantics, and second language acquisition. "This important book is a model of in-depth exploration that is much needed: intra-typological, diachronic, and synchronic exploration of contrasting ways of encoding a particular semantic domain û in this case the domain of motion events. The various Slavic languages present contrasting but related solutions to the intersection of motion and aspect. And, as a group, they offer alternate forms of satellite-framed typology, in contrast to the more heavily studied Germanic languages of this general type. The up-to-date and interdisciplinary nature of the volume makes it essential reading in cognitive and typological linguistics."-Dan I. Slobin, Professor Emeritus of Psychology and Linguistics, University of California, Berkeley "A feast for the mind, with untold riches and variety: different approaches, patterns and usage, diachronic as well as synchronic, Slavic and not just Russian. All on a high intellectual level from capable scholars. Ful besy were the editors in every thing, That to the feste was appertinent."-Alan Timberlake, Columbia University

10 concentration camps. 10 different places where you are starved, tortured, and worked mercilessly. It's something no one could imagine surviving. But it is what Yanek Gruener has to face. As a Jewish boy in 1930s Poland, Yanek is at the mercy of the Nazis who have taken over. Everything he has, and everyone he loves, have been snatched brutally from him. And then Yanek himself is taken prisoner -- his arm tattooed with the words PRISONER B-3087. He is forced from one nightmarish concentration camp to another, as World War II rages all around him. He encounters evil he could have never imagined, but also sees surprising glimpses of hope amid the horror. He just barely escapes death, only to confront it again seconds later. Can Yanek make it through the terror without losing his hope, his will -- and, most of all, his sense of who he really is inside? Based on an astonishing true story.
