Using a BBU 12G940 casting is an option - but not terribly practical (see 'Engine - 998 tuning, fitting a 1275 head'). The much coveted 12G295/12G206 heads are all-but non-existent realistically now. There are some about - most have been well used and abused, many cracked or modified into uselessness, with just a few, rare, un-molested examples of the species.

Engine - 998 tuning, bolt-ons (stage one) Keith Calver. 20/08/2005 12:25:00. The 998cc engine is a very robust and tunable unit. It is also the most common engine found in standard Minis. Despite the lure of the much-advertised 1380cc alternatives, many simply want to get a little more from what they have at reasonable outlay.

I currently have a 998 A series with a Stage 1 kit (Part No: C-STN17), I'm looking to move to the next stage to get a bit more performance. I was thinking either Rockers(Part No: C-AHT440) and/or an upgraded Head. However I'm not sure where to start. My 998 is in great shape, so right now an engine swap is not in the picture, nor the funds.

~~Classic Mini Engine Performance Enhancement - A DIY Guide~~

The 998 is quite tuneable for quite good money. You don't even have to mess about with changing cranks really. For good useable power a 998 is great, it'll take the revs and a lot of abuse on the road (mine does) It'll keep up and even embarrass a lot of the 1275 (and bigger)

The only sensible option is a standard head modified to 'stage three' spec, or a 12G295/12G206 Cooper head. Using a 12G940 casting is an option - but not terribly practical (see 'Engine - 998 tuning, fitting a 1275 head'). The much coveted 12G295/12G206 heads are all-but non-existent realistically now.

~~Austin Mini Cooper Engine~~ ~~—~~ ~~998 TUNING~~

The normal timing is 2 degrees advance, static. These marks line up with a notch on the front pulley in each case. Tappet clearances are 0.012 inch, sliding fit with a feeler gauge with the engine cold, both inlet and exhaust. The main torque figures for the A Series engine are; Cylinder head and outer rocker shaft brackets, 40lb ft.
