First published in 2013. Routledge is an imprint of Taylor & Francis, an informa company.

Essential Japanese Grammar is an indispensable study guide for students of the Japanese language at all levels. Long the standard in Japanese language education, it provides clear, jargon-free explanations of how Japanese grammar works and offers hundreds of example sentences. It is an essential handbook for self-study or for the classroom and should be a valued resource for years to come. A strong foundation in grammar is vital to those wishing to learn Japanese as a whole. Essential Japanese Grammar presents a number of unique features. First, grammatical terminology has been kept to a minimum so that extensive prior knowledge of grammar is not required. Second, abundant example sentences written in Japanese characters (kana and kanji) followed by romanji and English translations. Third, the authors have tried to reveal aspects of grammar that may not be found in comparable grammar books such as rare Japanese verbs, adjectival nouns, clauses adverbs, etc. This Japanese grammar book contains: parts of speech. sentence constructions. conjugations forms. speech styles and tones. accentuation rules. essential words and functional elements. an appendix for referencing and cross-referencing Japanese words.

Concise descriptions of grammar, use, and genres make Learning Japanese for Real indispensable for adult learners of the language. The volume presents a holistic view of the knowledge required for proficiency in Japanese. Following introductory chapters on the language 's background, sound system and scripts, word types, and grammatical categories, it introduces readers to simple then complex sentences. A chapter on emotive expressions contains highly useful entries on attitudinal adverbs, exclamatory phrases, interjections, and rhetorical questions—all of which carry emotive meanings. Learning Japanese for Real then goes beyond grammar to discuss how the language is used in interaction. The author discusses communication strategies such as requesting, apologizing, and inviting as well how to interact when participating in a conversation with behaviors such as hand signals, bowing, and nodding. She considers metaphor, tautology, puns, and the lingering effect of yojoo before addressing the organization of Japanese discourse, including the four-part organizational principle of ki-shoo-ten-ketsu and the structure of "staging." The final sections feature authentic examples of popular culture discourse from manga, television, advertising, magazines, and cell-phone novels and a host of practical suggestions (methods, tools, resources) for learning Japanese. Learning Japanese for Real will become a key source for Japanese language students during their elementary, intermediate, and advanced training. As an essential anthology of grammar, use, and genres of the Nihongo world, teachers of Japanese will also find it invaluable.

A "real manga, real Japanese" study guide and resource for language students and teachers

Explains the basic terminology and concepts of English grammar, focusing on material which will most benefit students of Japanese.

This book offers in depth explanations of selected problem areas in Japanese grammar as seen in errors frequently made by English speaking students of Japanese.

Making Sense of Japanese Grammar explains in a lively and highly informative manner basic principles that underlie a wide range of phenomena in Japanese. Students--irrespective of proficiency level and linguistic training--will find clarification on matters of grammar that often seem idiosyncratic and Japanese-specific, such as avoiding the use of certain pronouns, employing the same word order for questions, hidden subjects, polite and direct forms. This volume may be used as a supplementary classroom reading or a helpful reference for students of all levels. Both students and instructors, even those trained in linguistics, will find its accessible explanations of grammatical concepts helpful
