This classic text addresses one of the most important issues in modern social theory and policy: how social inequality is reproduced from one generation to the next. With the original 1987 publication of *Ain't No Makin' It*, Jay MacLeod brought us to the Clarendon Heights housing project where we met the 'Brothers' and the 'Hallway Hangers'. Their story of poverty, race, and defeatism moved readers and challenged ethnic stereotypes. MacLeod's return eight years later, and the resulting 1995 revision, revealed little improvement in the lives of these men as they struggled in the labor market and crime-ridden underground economy. The third edition of this classic ethnography of social reproduction brings the story of inequality and social mobility into today's dialogue. Now fully updated with thirteen new interviews from the original Hallway Hangers and Brothers, as well as new theoretical analysis and comparison to the original conclusions, *Ain't No Makin' It* remains an admired and invaluable text.

Why is it that children from disadvantaged backgrounds find it so difficult – and often impossible – to achieve? Few questions are of such fundamental importance to the functioning of a fair and effective society than this one, yet the academic and political narratives that exist to explain the problem are fundamentally contradictory: some say the root of the problem lies in racial prejudice; others that the key factor is class; others again argue that we should look first at laziness, government's commitment to provide demotivating 'safety nets,' and to the appeal of easy money earned from a criminal lifestyle. Jay Macleod's seminal work of anthropology is one of the most influential studies to address this issue, and – in suggesting that problems of class, above all, help to fuel continued social inequality, Macleod is engaging in an important piece of problem-solving. He asks the right questions, basing his study on two different working class subcultures, one white and largely devoid of aspiration and the other black and much more ambitious and conformist. By showing that the members of both groups find it equally hard to achieve their dreams – that there really 'Ain't no makin' it,' as his title proposes – Macleod issues a direct challenge to the ideology of the American Dream, and by extension to the social contract that underpinned American society and politics for the duration of the twentieth century. His work – robustly structured and well-reasoned – is now frequently studied in universities, and it offers a sharp corrective to those who insist that the poor could control their own destinies if they choose to do so.

A thoroughly updated edition of Jay MacLeod's classic ethnography on the cycle of social reproduction and inequality as experienced by the men from the Clarendon Heights housing project--now with new interviews and analysis.

Oriented toward the introductory student, *The Inequality Reader* is the essential textbook for today's undergraduate courses. The editors, David B. Grusky and Szonja Szelenyi, have assembled the most important classic and contemporary readings about how poverty and inequality are generated and how they might be

reduced. With thirty new readings, the second edition provides new materials on anti-poverty policies as well as new qualitative readings that make the scholarship more alive, more accessible, and more relevant. Now more than ever, *The Inequality Reader* is the one-stop compendium of all the must-read pieces, simply the best available introduction to the stratification canon.

In 1988 Ericka and Julie Ingram began making a series of accusations of sexual abuse against their father, Paul Ingram, who was a respected deputy sheriff in Olympia, Washington. At first the accusations were confined to molestations in their childhood, but they grew to include torture and rape as recently as the month before. At a time when reported incidents of "recovered memories" had become widespread, these accusations were not unusual. What captured national attention in this case is that, under questioning, Ingram appeared to remember participating in bizarre satanic rites involving his whole family and other members of the sheriff's department. *Remembering Satan* is a lucid, measured, yet absolutely riveting inquest into a case that destroyed a family, engulfed a small town, and captivated an America obsessed by rumors of a satanic underground. As it follows the increasingly bizarre accusations and confessions, the claims and counterclaims of police, FBI investigators, and mental health professionals. *Remembering Satan* gives us what is at once a psychological detective story and a domestic tragedy about what happens when modern science is subsumed by our most archaic fears.

"I ain't goin' to college. Who wants to go to college? I'd just end up gettin' a shitty job anyway." So said Freddie Piniella, an eleven-year-old boy from Clarendon Heights low-income housing project, to Jay MacLeod, his counselor in a youth program. MacLeod was struck by the seeming self-defeatism of Freddie and his friends. How is it that in America, a nation of dreams and opportunities, a boy of eleven can feel trapped in a position of inherited poverty? The author immersed himself in the teenage underworld of Clarendon Heights. The Hallway Hangers, one of the neighborhood cliques, appear as cynical self-destructive hoodlums. The other group, the Brothers, take the American Dream to heart and aspire to middle-class respectability. The twist is that the Hallway Hangers are mostly white; the Brothers are almost all black. Comparing the two groups, MacLeod provides a provocative account of how poverty is perpetuated from one generation to the next. Part One tells the story of the boys' teenage aspirations. Part Two follows the Hallway Hangers and the Brothers into adulthood. Eight years later the author returns to Clarendon Heights to find the members of both gangs struggling in the labor market or on the streets. Caught in the web of urban industrial decline, the Hallway Hangers—undereducated, unemployed, or imprisoned—have turned to the underground economy. But "cocaine capitalism" only fuels their desperation, and the Hallway Hangers seek solace in sexism and racism. The ambitious Brothers have fared little better. Their teenage dreams in tatters, the Brothers demonstrate that racism takes its toll on optimistic aspirations. This edition retains the vivid accounts of friendships, families, school, and work that made the first edition so popular. The ethnography resonates with feeling and vivid dialogue. But the book also addresses one of the most important issues in modern social theory and policy: how social inequality is reproduced from one generation to the next. MacLeod links individual lives with social theory to forge a powerful argument about how inequality is created, sustained, and accepted in the United States.

This book provides selections from the seminal works of Karl Marx, Max Weber, W.E.B. Du Bois, and Charlotte Perkins Gilman that reveal some of the reasons why class, race, and gender inequalities have proven very adaptive and can flourish even today in the 21st century.
