Upgrading from Alfresco Community Edition | Alfresco ...

Alfresco overview Alfresco is an open source Enterprise Content Management (ECM) system that manages all the content within an enterprise and provides the services and controls that manage this content. At the core of the Alfresco system is a repository supported by a server that persists content, metadata, associations, and full text indexes.

Alfresco overview | Alfresco Documentation

Alfresco Content Services, the enterprise edition of the open source ECM solution, provides open, flexible, highly scalable Enterprise Content Management capabilities. Content is accessible wherever and however you work and easily integrates with your other business applications.

Try Alfresco software Online | Alfresco

When LDAP authentication is used without user registry export, default Alfresco Community Edition person objects are created automatically for all those users who successfully log in. However, they will not be populated with attributes without user registry export enabled.
