Boat design is something America can be uniquely proud of. As the global melting pot all during the 18th and 19th centuries, fishermen, boat builders from the entire world contributed to the variety and excellence of American small sailing craft. Thank you Chappelle, for preserving this knowledge. and some day I'll build a flat iron skiff.

File Type PDF American Small Sailing Craft

A well written text that explores american working sail in the smaller alongshore models. These are the sizes most likely to be built by small boatyards and amateurs. What surprised me was the variety in both model and rig after 1800. If you want to know what has been found to work in various conditions, I don't know how you can beat this one.

Howard Chapelle states in

File Type PDF American Small Sailing Craft

his book American Small Sailing Craft, "The Whitehall represents a refinement in an old type rather than a distinct and local innovation. The boat is on the same general model used in very fast pulling boats, the Wherry, Cutter, and Gig, from 1690, or earlier, to the end of the nineteenth century."

The New England dory, the
seine boat, the Connecticut
drag boat, and the yawl were
such production-built boats.
In general, flat-bottomed
rowing and sailing craft
were the most widely used of

File Type PDF American Small Sailing Craft

the North American boat types. The flat-bottomed hull appeared in two basic forms: the scow, or punt, and the "flatiron," or sharp-bowed skiff.

~~The Project Gutenberg eBook of The Migrations Of An ...~~
In fact, flat-bottomed, blunt-ended sailing craft were popular working boats in 19th century America, and they were respected in that role. More than carrying a load of rock, bricks, hay, etc. well, though, Chapelle notes that the boat below, taken from the book: ... appeared a very fast sailer, considering her heavy load.
