An unforgettable portrait of Paris and Vichy France during the Nazi occupation Americans in Paris recounts tales of adventure, intrigue, passion, deceit, and survival under the brutal Nazi occupation through the eyes of the Americans who lived through it all. Renowned journalist Charles Glass tells the story of a remarkable cast of five thousand expatriates--artists, writers, scientists, playboys, musicians, cultural mandarins, and ordinary businessmen--and their struggles in Nazi Paris. Glass's discovery of letters, diaries, war documents, and police files reveals as never before how Americans were trapped in a web of intrigue, collaboration, and courage.

Acclaimed journalist Charlie Glass looks to the American expatriate experience of Nazi-occupied Paris to reveal a fascinating forgotten history of the greatest generation. In *Americans in Paris*, tales of adventure, intrigue, passion, deceit, and survival unfold season by season, from the spring of 1940 to liberation in the summer of 1944, as renowned journalist Charles Glass tells the story of a remarkable cast of expatriates and their struggles in Nazi Paris. Before the Second World War began, approximately thirty thousand Americans lived in Paris, and when war broke out in 1939 almost five thousand remained. As citizens of a neutral nation, the Americans in Paris believed they had little to fear. They were wrong. Glass's discovery of letters, diaries, war documents, and police files reveals as never before how Americans were trapped in a web of intrigue, collaboration, and courage. Artists, writers, scientists, playboys, musicians, cultural mandarins, and ordinary businessmen--all were swept up in extraordinary circumstances and tested as few Americans before or since. Charles Bedaux, a French-born, naturalized American millionaire, determined his alliances as a businessman first, a decision that would ultimately make him an enemy to all. Countess Clara Longworth de Chambrun was torn by family ties to President Roosevelt and the Vichy government, but her fiercest loyalty was to her beloved American Library of Paris. Sylvia Beach attempted to run her famous English-language bookshop, Shakespeare & Company, while helping her Jewish friends and her colleagues in the Resistance. Dr. Sumner Jackson, wartime chief surgeon of the American Hospital in Paris, risked his life aiding Allied soldiers to escape to Britain and resisting the occupier from the first day. These stories and others come together to create a unique portrait of an eccentric, original, diverse American community. Charles Glass has written an exciting, fast-paced, and elegant account of the moral contradictions faced by Americans in Paris during France's dangerous occupation years. For four hard years, from the summer of 1940 until U.S. troops liberated Paris in August 1944, Americans were intimately caught up in the city's fate. *Americans in Paris* is an unforgettable tale of treachery by some, cowardice by others, and unparalleled bravery by a few.

McCullough mixes famous and obscure names and delivers capsule biographies of everyone to produce a colorful parade of educated, Victorian-era American travelers and their life-changing experiences in Paris.

Bestselling writer Suzy Gershman (dubbed " Super Shopper Suzy " by Oprah) is our answer to Peter Mayle in this heartfelt, breezy, and funny story of starting over in Paris. Suzy had always fantasized about moving to Paris with her husband, but when he dies unexpectedly, she decides to fulfill their dream alone. Here she gives a deliciously conversational chronicle of her first year in Paris and of the dizzying delights and maddening frustrations of learning to be a Parisian. Filled with Gershman ' s insider ' s tips on everything from cooking the perfect clafoutis to—naturally—shopping, C ' est la Vie is delightfully entertaining and captures the exhilarating experience of beginning a new adventure.

A hilarious, candid account of what life in France is actually like, from a writer for *Vanity Fair* and *GQ* Americans love to love Paris. We buy books about how the French parent, why French women don't get fat, and how to be Parisian wherever you are. While our work hours increase every year, we think longingly of the six weeks of vacation the French enjoy, imagining them at the seaside in stripes with plates of fruits de mer. John von Sothen fell in love with

Paris through the stories his mother told of her year spent there as a student. And then, after falling for and marrying a French waitress he met in New York, von Sothen moved to Paris. But fifteen years in, he's finally ready to admit his mother's Paris is mostly a fantasy. In this hilarious and delightful collection of essays, von Sothen walks us through real life in Paris--not only myth-busting our Parisian daydreams but also revealing the inimitable and too often invisible pleasures of family life abroad. Relentlessly funny and full of incisive observations, Monsieur Mediocre is ultimately a love letter to France--to its absurdities, its history, its ideals--but it's a very French love letter: frank, smoky, unsentimental. It is a clear-eyed ode to a beautiful, complex, contradictory country from someone who both eagerly and grudgingly calls it home.

Walking through Montmartre that morning was like the eerie calm right before a storm. The roads were deserted. We carried on, arm in arm, and then finally, we saw them. Columns and columns of soldiers, spreading through the streets like a toxic grey vapour. ' You must write about this, ' he whispered to me. ' You must write about the day freedom left Paris. ' 1937: Florence has dreamed her whole life of coming to Paris. She arrives on a sweltering summer day and, lost on the steep streets of Montmartre, asks for directions from Otto, a young artist with paint-spattered clothes and the most beautiful smile she has ever seen. Otto becomes her guide to Paris, taking her to visit paintings in the Louvre and bookshops by the Seine. And when Otto returns home to finish his studies, they vow to reunite on the same spot they met, one year to the day. Still dreaming of their parting kiss, Florence starts writing for an American newspaper and throws herself into becoming truly Parisian. All too soon, heady days of parties and champagne are replaced by rumours of war. When Otto finally returns to her, it is as an exile, fleeing Nazi persecution. Soon, not even Paris is safe. Florence ' s articles now document life under occupation and hide coded messages from the Resistance. But with the man she loves in terrible danger, her words feel hollow and powerless. If Florence risks everything by accepting a dangerous mission, can she rescue their dreams from that sunny day before the war? A sweeping wartime story that will capture your heart and never let it go. Fans of *The Alice Network*, *The Lost Girls of Paris* and *My Name is Eva* will be absolutely gripped from the very first page.

Recounts the story of Janet McDonald, who grew up in the New York projects and graduated from Vassar College, Columbia University Graduate School of Journalism, and New York University School of Law, before becoming a lawyer in Paris.

A new collection from David Sedaris is cause for jubilation. His recent move to Paris has inspired hilarious pieces, including *Me Talk Pretty One Day*, about his attempts to learn French. His family is another inspiration. *You Cant Kill the Rooster* is a portrait of his brother who talks incessant hip-hop slang to his bewildered father. And no one hones a finer fury in response to such modern annoyances as restaurant meals presented in ludicrous towers and cashiers with 6-inch fingernails. Compared by *The New Yorker* to Twain and Hawthorne, Sedaris has become one of our best-loved authors. Sedaris is an amazing reader whose appearances draw hundreds, and his performances including a jaw-dropping impression of Billie Holiday singing *I wish I were an Oscar Meyer weiner* are unforgettable. Sedaris's essays on living in Paris are some of the funniest he's ever written. At last, someone even meaner than the French! The sort of blithely sophisticated, loopy humour that might have resulted if Dorothy Parker and James Thurber had had a love child. Entertainment Weekly on *Barrel Fever* Sidesplitting Not one of the essays in this new collection failed to crack me up; frequently I was helpless. *The New York Times Book Review* on *Naked*

"A Moveable Feast" by Ernest Hemingway. Published by Good Press. Good Press publishes a wide range of titles that encompasses every genre.
