Active note-taking means: Think about what you want to get from your reading and why you are making notes – how much detail do you need to read, and how much detail will you need in your notes? Look for answers to the questions you need to address: are you looking for definitions, examples, or debates/theories? Look for connections between what the current text says and anything you have already read: do the authors agree?

Note-taking is the practice of writing down or otherwise recording key points of information. It's an important part of the research process. Notes taken on class lectures or discussions may serve as study aids, while notes taken during an interview may provide material for an essay, article, or book. "Taking notes doesn't simply mean scribbling down or marking up the things that strike your fancy," say Walter Pauk and Ross J.Q. Owens in their book, "How to Study in College."
