What if psychoanalysis had chosen Antigone rather than Oedipus? This book traces the relation between ethics and desire in important philosophical texts that focus on femininity and use Antigone as their model. It shows that the notion of feminine desire is conditioned by a view of women

Bookmark File PDF Antigone Answers

as being prone to excesses and deficiencies in relation to ethical norms and rules. Sjöholm explains Mary Wollstonecraft's work, as well as readings of Antigone by G.W.F. Hegel, Martin Heidegger, Luce Irigaray, Jacques Lacan, and Judith Butler. This book introduces the concept of the "Antigone complex" in order to illuminate the obscure and multifaceted question of feminine desire, which has given rise to the fascination of generations of philosophers and other theoreticians, as well as readers and spectators. At the same time the book argues for a notion of desire that is intrinsically related to ethics. The ethical question posed by Antigone, and explored in the book, is: what determines those actions that one must do, as opposed to those that one ought to do?

This anthology provides some of today's most relevant views on Sophocles' classic and its many interpretations from an interdisciplinary, cross-cultural perspective. It critically investigates the work of artists and theoreticians who have occupied Antigone ever since she appeared onstage in antiquity, dealing with questions of the relationship between performance and philosophy and of how Antigone can be appropriated to criticize reigning discourses. *Occupy Antigone* makes an original contribution to the vibrant life the mythical figure enjoys in contemporary performance practice and theory.

This book argues that while current scholarship on Antigone

Bookmark File PDF Antigone Answers

tends to celebrate work that takes Antigone out of her classical roots and puts her into contemporary frameworks, we do not need to place her in a new context and setting to appreciate what her insights offer. We can simply listen to her whole story and learn from what she learns from her father, Oedipus. While other works boldly claim to be progressively moving beyond the scope of tragic themes of mortality, Antigone Uninterrupted demonstrates that reading the Theban Plays in the order of Antigone ' s biography (so to speak) expands our understanding of what Antigone could tell us about contemporary issues. This demonstration involves Hegel ' s discussion of Antigone in his Phenomenology of Spirit, responses to Hegel on this point, and the author ' s assessment that Antigone makes

Bookmark File PDF Antigone Answers

arguments in Sophocles ' Oedipus at Colonus that ought to be illuminated in contemporary scholarship. This book examines the three Theban Plays (Oedipus Rex, Oedipus at Colonus, and Antigone) in the order by which Antigone ' s story is a continuous development of character and age, a unique approach for reasons the author identifies, but one she argues would be beneficial to future scholarship. Providing illuminating readings of both Sophocles ' tragedies and some key modern interpretations of the plays, this book holds broad appeal for those interested in subjects such as political science, gender theory, queer theory, literary criticism, theology, and sociology, to name a few.
