Finishing is both an art and a science and often poses challenges for today's welding fabricators and mechanical contractors.

Whether you are trying to achieve a linear, nondirectional, or mirror finish, you need to follow a specific process to arrive at the desired finish.

Following the correct steps

Students can use jewelry findings to finish off the resin objects. Having a variety of findings like earring posts, necklace chains, clasps and closures will allow for many different pieces to be made. Simply attach the findings by pouring a small amount of resin and allow it to set, or use a little adhesive to lock it in place.
