Cancellations for courses with a flight simulator training device training element received less than sixty (60) calendar days prior to class start day may be assessed full training charges. Customer may cancel all other training services on or before ten (10) working days prior to class start date to avoid a cancellation fee.

A book about the AS 350 and the AS 355, and their operating characteristics.

The FAA's Helicopter Flying Handbook introduces the skills and knowledge essential for piloting helicopters. It benefits student pilots just beginning their aviation endeavors, as well as pilots preparing for additional certificates and ratings or who want to improve their flying proficiency, and flight instructors engaged in teaching pilots of all skill levels. This handbook provides information and guidance on the procedures and maneuvers required for pilot certification. In addition to a basic introduction to the helicopter, readers will find chapters on aerodynamics, flight controls, components and systems, the rotorcraft flight manual, weight and balance, performance, ground procedures, basic and advanced flight maneuvers, emergencies and hazards, attitude instrument flying and night operations. The Helicopter Flying Handbook is the official FAA source for learning to fly helicopters and is a primary reference for the FAA Knowledge Exams. Complete with chapter summaries and illustrated throughout with detailed, full-color drawings and photographs. It also includes a comprehensive glossary and index.

Know Your Helicopters is a pocket-sized book detailing 44 types of helicopters most commonly seen in service today from the smallest Robinson to the biggest Mil, including Bells, Boeings, Sikorskys and many more. A photograph of each machine is included.Tom Hargreave served 18 years in the British Army as an Army Air Corps pilot. In this time he accumulated 2,500 hours of flight time across a variety of helicopter types including the Gazelle, Lynx, Agusta 109 and the Apache.

A selection of annotated references to unclassified reports and journal articles that were introduced into the NASA scientific and technical information system and announced in Scientific and technical aerospace reports (STAR) and International aerospace abstracts (IAA).
