Evaluation Kits Jump Start Motor Applications

We use an AVR Dragon for pretty much everything. But the STK500 is a very popular board even though you need a serial port to use it. It has chip sockets, buttons, and LEDs for on-board prototyping.

AVR Programming 02: The Hardware
Since Microchip acquired Atmel, the fields of battle have fallen silent. The Crusaders have returned home, or have been driven into the sea. The great microcontroller holy war is over.
