In *The Kinfolk Entrepreneur*, author Nathan Williams introduces readers to 40 creative business owners around the globe, offering an inspiring, in-depth look behind the scenes of their lives and their companies. Pairing insightful interviews with striking images of these men and women and their workspaces, *The Kinfolk Entrepreneur* makes business personal. The book profiles both budding and experienced entrepreneurs across a broad range of industries (from fashion designers to hoteliers) in cities across the globe (from Copenhagen to Dubai). Readers will learn how today's industry leaders handle both their successes and failures, achieve work-life balance, find motivation in the face of adversity, and so much more.

method of thought and analysis. Success in organic chemistry requires mastery in two core aspects: fundamental concepts and the skills needed to apply those concepts and solve problems. Readers must learn to become proficient at approaching new situations methodically, based on a repertoire of skills. These skills are vital for successful problem solving in organic chemistry. Existing textbooks provide extensive coverage of, the principles, but there is far less emphasis on the skills needed to actually solve problems.

Accounting Theory 5th edition is the new edition of the market leading theory textbook. The 5th edition has been updated to enhance student understanding of the role of accounting theory and the application of accounting theory in the professional environment. Increasingly, students have failed to appreciate the relevance of studying accounting theory due to the esoteric nature of the discipline and its lack of any obvious correlation to a discrete accounting process. The new edition addresses this issue and makes the link to industry more clear through chapter vignettes and case studies. The new edition goes further to align the study of accounting theory to the professional environment domestically and internationally. To achieve this, the new edition includes a "International View" vignette in each chapter to profile the international response or thinking on relevant issues, ?Theory in Action? boxes illustrate the chapter material by way of presenting professional examples to build understanding and end of chapter case studies have develop and apply student understanding of the material. The new edition continues to provide the latest research and the most comprehensive discussion of material whilst maintaining its critical perspective.

The audit environment continues to change in dramatic ways, and Johnstone/Gramling/Rittenberg's AUDITING: A RISK BASED-APPROACH, 11E prepares students for that fast-changing world by developing their professional and ethical decision-making skills. AUDITING integrates the latest in standards, including new guidance from the PCAOB on audit reports, fraud risks, emerging topics such as data analytics, and ethical challenges facing today's financial statement auditors within a framework of professional skepticism. Extensively re-written to be more student focused, AUDITING has multiple hands-on opportunities to develop critical-thinking skills with new in-text learning features including What Do You Think? For Classroom Discussion, and Prompts for Critical Thinking: It's Your Turn!. Finally, unique end-of-chapter Tableau-based problems help students become formidable data-driven decision makers. AUDITING can be paired with MindTap digital resources, which offer an interactive ebook as well as engaging, high-impact cases to teach data-driven decision making skills.
