And he makes me feel smarter, because now I finally understand this concept.'" — Steve Krug, author of Don't Make Me Think and Rocket Surgery Made Easy "A web designer without a copy of Designing with Web Standards is like a carpenter without a level. With this third edition, Zeldman continues to be the voice of clarity; explaining the complex in plain English for the rest of us." — Dan Cederholm, author, Bulletproof Web Design and Handcrafted CSS "Jeffrey Zeldman sits somewhere between 'guru' and 'god' in this industry—and manages to fold wisdom and wit into a tale about WHAT web standards are, HOW standards-based coding works, and WHY we should care." — Kelly Goto, author, Web ReDesign 2.0: Workflow that Works "Some books are meant to be read. Designing with Web Standards is even more: intended to be highlighted, dogeared, bookmarked, shared, passed around, and evangelized, it goes beyond reading to revolution." — Liz Danzico, Chair, MFA Interaction Design, School of Visual Arts

HTML and CSS can be a little daunting at first but fear not. This book, based on Shay Howe's popular workshop covers the basics and breaks down the barrier to entry, showing readers how they can start using HTML and CSS through practical techniques today. They'll find accompanying code examples online, while they explore topics such as the different structures of HTML and CSS, and common terms. After establishing a basic understanding of HTML and CSS a deeper dive is taken into the box model and how to work with floats. The book includes an exercise focused on cleaning up a web page by improving the user interface and design, solely using HTML and CSS. With a few quick changes the web page changes shape and comes to life. Interactive, technically up-to-the-minute and easy-to-understand, this book will advance a student's skills to a professional level.
