Beria Stalins First Lieutenant
After Stalin's death, Beria was appointed First Deputy Premier and reappointed head of the MVD, which he merged with the MGB. His close ally Malenkov was the new Premier and initially the most powerful man in the post-Stalin leadership. Beria was second most powerful, and given Malenkov's personal weakness, was poised to become the power behind ...

Lavrentiy Beria - Wikipedia

This is the first comprehensive biography of Lavrentii Beria, Stalin's notorious police chief and for many years his most powerful lieutenant. Beria has long symbolized all the evils of Stalinism, haunting the public imagination both in the West and in the former Soviet Union.

Beria: Stalin's First Lieutenant eBook: Knight, Amy ...

Beria - Stalin's First Lieutenant by Amy Knight is a well-written, exemplary biography that attempts to "challenge some basic assumptions" about Lavrenti Beria and his role in Stalinism and terror from the time of the October Revolution of 1917 to his execution in 1953. Robert C. Tucker, Professor Emeritus, Princeton University, has called this book "the first full-scale scholarly biography of Stalin's clever, cruel and domineering security chief."

This is the first comprehensive biography of Lavrentii Beria, Stalin's notorious police chief and for many years his most powerful lieutenant. Beria has long symbolized all the evils of Stalinism, haunting the public imagination both in the West and in the former Soviet Union. Yet because his political opponents expunged his name from public memory after his dramatic arrest and execution in 1953, little has been previously published about his long and tumultuous career.

This book is a memoir of the daily life of two men from Georgia--Stalin and Beria--who sent millions to their graves.

This book offers a compelling and comprehensive account of what happened to the KGB when the Soviet Union collapsed and the world's most powerful and dangerous secret police organization was uncllocked. As Amy Knight shows, the KGB was renamed and reorganized several times after it was officially disbanded in December 1991--but it was not reformed. Knight's rich and lively narrative begins with the aborted August 1991 coup, led by KGB hard-liners, and takes us through the summer of 1995, when the Russian parliamentary elections were looming on the horizon. The failed coup attempt was a setback for the KGB because it led to demands from Russian democrats for a complete overhaul of the security services. As a result, the KGB's leaders were fired, its staff reduced, and its functions dispersed among several agencies. Even the elite foreign intelligence service was subjected to budget cuts. But President Yeltsin was reluctant to press on with reforms of the security services, because he needed their support in his struggle against mounting political opposition. Indeed, by the spring of 1995, the security services had regained much of what they had lost in the wake of the August coup. Some observers were even saying that they had acquired more power and influence than the old KGB. This story told by one of the foremost experts on the Soviet/Russian security services and enriched by face-to-face interviews with security professionals in Moscow, is crucial to understanding Russian politics in transition. It will fascinate scholars, policymakers, and general readers interested in the fate of the KGB.

The 1934 murder of the charismatic politician Sergei Kirov sparked Stalin's brutal purges, and speculation about it still fascinates the Russians. Who killed Kirov, and why? In Russia, conspiracy theories about Kirov have abounded, and scholars throughout the world have tackled various pieces of the story -- but definitive evidence has eluded them. Now Amy Knight has combed the recently opened Russian archives to reconstruct this fascinating crime and analyze its effect on the Russian people. The result is at once an intriguing murder mystery and a major piece of scholarship that sheds new light on the terrors of Stalin.

This book, first published in 1990, examines the origins and evolution of the security police, considering the continuities as well as changes in its function as guardian of the regime's security. It analyses the KGB's involvement in Kremlin politics, the structure and organisation of the KGB, its formal tasks and legal prerogatives as set forth by the Party leadership, and the actual functions it performs on behalf of the Soviet regime. Underlying this analysis is an attempt to assess the power and authority of the KGB relative to other political institutions and to explain the crucial dynamics of the Party- KGB relationship.

An in-depth study of the Communist leader focuses on the complexity of his character and his rise to power as Stalin's confidant and commander of the Russian secret police.

Draws on newly declassified intelligence files to examine one of the twentieth century's most influential spy cases as well as its role in generating the Cold War, discussing the defection of a cipher clerk who revealed a Soviet espionage network in North America less than a month after the atomic bombing of Japan.

The KGB Plays Chess is a unique book. For the first time it opens to us some of the most secret pages of the history of chess. The battles about which you will read in this book are not between chess masters sitting at the chess board, but between the powerful Soviet secret police, known as the KGB, on the one hand, and several brave individuals, on the other. Their names are famous in the chess world: Viktor Kortschnoi, Boris Spasski, Boris Gulko and Garry Kasparov became subjects of constant pressure, blackmail and persecution in the USSR. Their victories at the chess board were achieved despite this victimization. Unlike in other books, this story has two perspectives. The victim and the persecutor, the hunted and the hunter, all describe in their own words the very same events. One side is represented by the famous Russian chess players Viktor Kortschnoi and Boris Gulko. For many years they fought against a powerful system, and at the end they were triumphant. The Soviet Union collapsed and they got what they were fighting for: their freedom. Former KGB Lieutenant Colonel Vladimir Popov, who left Russia in 1996 and now lives in Canada, was one of those who had worked all his life for the KGB and was responsible for the sport sector of the USSR. It is only now for the first time that he has decided to tell the reader his story of the KGBs involvement in Soviet Sports. This is his first book, and it is not only full of sensations, but it also dares to name names of secret KGB agents previously known only as famous chess masters, sportsmen or sport officials. Just a few short years ago a book like this would have been unimaginable. Read this book. It is not only about chess. It is about glorious victory of the great chess masters over the forces of darkness.
