Students will learn the science of life in this colorful textbook that displays an engaging design sure to grab their attention from the very first day. Each chapter of Life Science includes well-researched material written at grade level, colorful images to reinforce text content, boxes with fun facts and helpful explanations, a list of key terms, a chapter summary, thought-provoking review questions, and extra questions to prepare students for standardized tests. Students will study cell biology, genetics, the history of life, microbiology, botany, zoology, ecology, and human anatomy and physiology, all within a biblical framework. -

This lab manual accompanies BJU Press' sold-separately BJU Life Science Grade 7 text. Activites provide an opportunity to solidify text concepts, develop lab skills, learn to record and interpret data, build problem-solving skills, and more. Two types of activites are included: "Applications" and "Investigation." Applications are worksheet-based activities that reinforce vocabulary, thinking skills, and concepts. Investigations are hands-on exercises that included experimets, library research, collecting ojects, or other activities. Full-color pages provide space for students to record observations and their thoughts. 376 perforated pages, three-hole-punched, softcover. Grade 7.

Life Science for grades 5 to 8 is designed to aid in the review and practice of life science topics. Life Science covers topics such as classifying animals, plant and animal structures, life cycles, biomes, and energy transfer. The book includes realistic diagrams and engaging activities to support practice in all areas of life science. --The 100+ Series science books span grades 5 to 12. The activities in each book reinforce essential science skill practice in the areas of life science, physical science, and Earth science. The books include engaging, grade-appropriate activities and clear thumbnail answer keys. Each book has 128 pages and 100 pages (or more) of reproducible content to help students review and reinforce essential skills in individual science topics. The series is aligned to current science standards.

This BJU Press lab Manuals Teachers edition accompanies BJU Press' Life Science Grade 7 Student Activity Lab Manual, 4th Edition. Student pages are reproduced with the correct answers overlaid for easy grading. Where applicable, the margins include homeschool timps, teaching hints, helpful experiment suggestions, visuals, to integrate, and more. 389 pages, spiralbound, soft front-cover hard back-cover."

In this text "students will see God's power and glory in creation as they learn about cellular biology, genetics, taxonomy, microbiology, botany, zoology, and human anatomy. When studying topics such as Creation and evolution, human cloning, abortion, and stem cell research, students are pointed to Scripture as the ultimate authority and are encouraged to develop a biblical perspective about these topics" --

Evaluate student progress and comprehension with this set of tests. Designed to be used with the sold-separately BJU Press' Earth Science Text, 4th Edition. Glue binding for easy removal. Multiple choice, essay, short answer, and sentence completion exercises are included. One test for each chapter. Grade 8.

Earth Science (5th Edition) Student Text moves the student from the lithosphere of the earth itself to the hydrosphere in and on the earth to the atmosphere surrounding the earth and finally out into space visiting the solar system and the rest of the universe. All of this is a quest to understand God's created world. Case studies and other activities encourage students to think like scientists as they develop a biblical perspective of earth and space. - Publisher.

Increase your appreciation of God's wonderful creation through a study of various concepts about earth science, life science, physical science, and the human body in Science 6. Learn about new and current technology being developed that utilizes and benefits from science. Explore earthquakes and volcanoes, weathering and erosion, natural resources, and astronomy while learning about the earth and space. Life science topics include cells and classification systems as well as reproduction and genetics. While studying physical science, investigate atoms and molecules, electricity and magnetism, and motion and machines. Discover the wonders of the human body as you study the nervous and immune systems. Your student will enrich his critical thinking skills through the hands-on activities and the use of diagrams, charts, and visuals. - Publisher.
