My Name is Memory is a novel written in 2010 by Ann Brashares, author of the best-selling young adult series The Sisterhood of the Traveling Pants. The novel is centered on a mysterious young boy named Daniel, and Sophia, the girl he has spent lifetimes searching for; as he races against time to spur her lost memories of him before his vengeful, centuries-old brother Joaquim finds them. The story has been optioned for film.

~~My Name Is Memory Wikipedia~~

Daniel has "the memory", the ability to recall past lives and recognize souls of those he's previously known. It is a gift and a curse. For all the times that he and Sophia have been drawn together throughout history, they have also been torn painfully, fatally, apart. A love always too short.

Courtney Webb. Ann Brashares' latest novel, My Name Is Memory, is the perfect melding of historical and contemporary fiction. As the saga of lovers doomed to meet and be torn apart throughout history, it offers both the modern love story mixed with the magical writings of days past. Brashares proves herself not only a true storyteller, but also a gifted writer able to turn research into reality on the page while still keeping readers engaged in present day.

My Name is Memory (Unabridged) I really enjoyed this book. It had a lot of detail and brought you right into the story. It made you feel the feelings in the book. The test of a good writer. It is definitely a love story. The ending certainly left the possibility for a sequel. I hope and look forward to a sequel.

The latest from Ann Brashares, the New York Times bestselling author of The Sisterhood of the Traveling Pants, a magical story of reincarnation and a love that lasts more than a lifetime Daniel has spent centuries falling in love with the same girl. Life after life, crossing continents and dynasties, he and Sophia (despite her changing name and form) have been drawn together-and he remembers it all. For all the times that he and Sophia have been connected throughout history, they have also been torn painfully, fatally, apart. But just when Sophia (now "Lucy" in the present) finally awakens to the secret of their shared past, the mysterious force that has always separated them reappears. Ultimately, they must come to understand what stands in the way of their love if they are ever to spend a lifetime together.

Daniel tells me that he's always loved me. That I feel the same. That I always have. Not just in this life, but in my last life, and all my lives before. But I don't remember him. He says he is always searching for me. Always hoping that one day I will remember. But it is only he that carries the memory of our love. I know that finding true love is never easy. Perhaps you have fought for it. Perhaps, like Daniel, you have endured the pain of it being unrequited. But I hope your quest ends happily. I hope you never have to face the heartbreak that inevitably awaits us. This is our extraordinary, unforgettable story.

From the New York Times-bestselling author of *The Sisterhood of the Traveling Pants* Ann Brashares comes her first adult novel. In the town of Waterby on Fire Island, the rhythms and rituals of summer are sacrosanct: the ceremonial arrivals and departures by ferry; yacht club dinners with terrible food and breathtaking views; the virtual decree against shoes; and the generational parade of sandy, sun-bleached kids, running, swimming, squealing, and coming of age on the beach. Set against this vivid backdrop, *The Last Summer (of You and Me)* is the enchanting, heartrending story of a beach-community friendship triangle and summertime romance among three young adults for whom summer and this place have meant everything. Sisters Riley and Alice, now in their twenties, have been returning to their parents' modest beach house every summer for their entire lives. Petite, tenacious Riley is a tomboy and a lifeguard, always ready for a midnight swim, a gale-force sail, or a barefoot sprint down the beach. Beautiful Alice is lithe, gentle, a reader and a thinker, and worshipful of her older sister. And every summer growing up, in the big house that overshadowed their humble one, there was Paul, a friend as important to both girls as the place itself, who has now finally returned to the island after three years away. But his return marks a season of tremendous change, and when a simmering attraction, a serious illness, and a deep secret all collide, the three friends are launched into an unfamiliar adult world, a world from which their summer haven can no longer protect them. Ann Brashares has won millions of fans with her blockbuster series, *The Sisterhood of the Traveling Pants*, in which she so powerfully captured the emotional complexities of female friendship and young love. With *The Last Summer (of You and Me)*, she moves on to introduce a new set of characters and adult relationships just as true, endearing, and unforgettable. With warmth, humor, and wisdom, Brashares makes us feel the excruciating joys and pangs of love—both platonic and romantic. She reminds us of the strength and sting of friendship, the great ache of loss, and the complicated weight of family loyalty. Thoughtful, lyrical, and tremendously moving, *The Last Summer (of You and Me)* is a deeply felt celebration of summer and nostalgia for youth.

They tell me that my memory will never be the same, that I'll start forgetting things. At first just a little, and then a lot. So I'm writing to remember. Sammie McCoy is a girl with a plan: graduate at the top of her class and get out of her small town as soon as possible. Nothing will stand in her way—not even the rare genetic disorder the doctors say will slowly steal her memories and then her health. So the memory book is born: a journal written to Sammie's future self, so she can remember everything from where she stashed her study guides to just how great it feels to have a best friend again. It's where she'll record every perfect detail of her first date with longtime-crush Stuart, a gifted young writer home for the summer. And where she'll admit how much she's missed her childhood friend Cooper, and the ridiculous lengths he will go to make her laugh. The memory book will ensure Sammie never forgets the most important parts of her life—the people who have broken her heart, those who have mended it—and most of all, that if she's going to die, she's going to die living. This moving and remarkable novel introduces an inspiring character you're sure to remember, long after the last page.

NEW YORK TIMES BESTSELLER — A fascinating exploration of the intricacies of how we remember, why we forget, and what we can do to protect our memories, from the Harvard-trained neuroscientist and bestselling author of *Still Alice*. —Using her expertise as a neuroscientist and her gifts as a storyteller, Lisa Genova explains the nuances of human memory—“Steven Pinker, Johnstone Professor of Psychology, Harvard University, author of *How the Mind Works* Have you ever felt a crushing wave of panic when you can't for the life of you remember the name of that actor in the movie you saw last week, or you walk into a room only to forget why you went there in the first place? If you're over forty, you're probably not

laughing. You might even be worried that these lapses in memory could be an early sign of Alzheimer's or dementia. In reality, for the vast majority of us, these examples of forgetting are completely normal. Why? Because while memory is amazing, it is far from perfect. Our brains aren't designed to remember every name we hear, plan we make, or day we experience. Just because your memory sometimes fails doesn't mean it's broken or succumbing to disease. Forgetting is actually part of being human. In *Remember*, neuroscientist and acclaimed novelist Lisa Genova delves into how memories are made and how we retrieve them. You'll learn whether forgotten memories are temporarily inaccessible or erased forever and why some memories are built to exist for only a few seconds (like a passcode) while others can last a lifetime (your wedding day). You'll come to appreciate the clear distinction between normal forgetting (where you parked your car) and forgetting due to Alzheimer's (that you own a car). And you'll see how memory is profoundly impacted by meaning, emotion, sleep, stress, and context. Once you understand the language of memory and how it functions, its incredible strengths and maddening weaknesses, its natural vulnerabilities and potential superpowers, you can both vastly improve your ability to remember and feel less rattled when you inevitably forget. You can set educated expectations for your memory, and in doing so, create a better relationship with it. You don't have to fear it anymore. And that can be life-changing.

Simon remembers every act of sin ever confessed to him. Pavel forgets what he has just played and rehearses the same melody over and over. Unable to recall faces, Veronika uses different perfumes to remember the ones she loves. *The Book of Memory Gaps* is a collection of darkly humorous mini-stories that examine our curious and capricious unconscious. With concise, lyrical prose and a discerning command of color, Cecilia Ruiz captures the delicate and fleeting nature of memory, as well as its immense power—after all, who would we be without it?

On alternating weeks, Sasha and Ray vacation in the beach house their parents refused to give up after their divorce, but they never meet until one summer when their lives and those of their siblings intersect in ways none of them could have imagined.

The story that you have asked me to tell you does not begin with the pitiful ugliness of Lloyd's death. It begins on a long-ago day in August when the sun seared my blistered face and I was nine years old and my father and mother sold me to a strange man. Memory, the narrator of Petina Gappah's *The Book of Memory*, is an albino woman languishing in Chikurubi Maximum Security Prison in Harare, Zimbabwe, after being sentenced for murder. As part of her appeal, her lawyer insists that she write down what happened as she remembers it. The death penalty is a mandatory sentence for murder, and Memory is, both literally and metaphorically, writing for her life. As her story unfolds, Memory reveals that she has been tried and convicted for the murder of Lloyd Hendricks, her adopted father. But who was Lloyd Hendricks? Why does Memory feel no remorse for his death? And did everything happen exactly as she remembers? Moving between the townships of the poor and the suburbs of the rich, and between past and present, the 2009 Guardian First Book Award-winning writer Petina Gappah weaves a compelling tale of love, obsession, the relentlessness of fate, and the treachery of memory.

Sixteen-year-old Erin Misrahe just wants to be like everyone else in her new school. But Erin has more to worry about than passing AP Chemistry or making friends. In times of stress, she has always been overcome by her alter ego, Shevaun, whose violent behavior wreaks havoc on those around her. Erin can never remember anything about these episodes, and she's grateful to have been spared them for a while. But when a protective friend comes back into Erin's life, he insists that Shevaun is a vampire who actually exists apart from Erin. Shevaun

Download Free Books My Name Is Memory Ann Brashares Now

has dangerous allies, like the handsome witch Adjila—and they're determined to sever Shevaun's connection to Erin once and for all.

An exploration of life at the margins of history from one of Russia's most exciting contemporary writers With the death of her aunt, the narrator is left to sift through an apartment full of faded photographs, old postcards, letters, diaries, and heaps of souvenirs: a withered repository of a century of life in Russia. Carefully reassembled with calm, steady hands, these shards tell the story of how a seemingly ordinary Jewish family somehow managed to survive the myriad persecutions and repressions of the last century. In dialogue with writers like Roland Barthes, W. G. Sebald, Susan Sontag, and Osip Mandelstam, *In Memory of Memory* is imbued with rare intellectual curiosity and a wonderfully soft-spoken, poetic voice. Dipping into various forms—essay, fiction, memoir, travelogue, and historical documents—Stepanova assembles a vast panorama of ideas and personalities and offers an entirely new and bold exploration of cultural and personal memory.
