The hit television drama Breaking Bad is discussed by professional thinkers who compare the major themes of the show with philosophical concepts and answer questions about injustice, retaliation and the potential of everyone to become a ruthless criminal. Original.

Breaking Bad, hailed by Stephen King, Chuck Klosterman, and many others as the best of all TV dramas, tells the story of a man whose life changes because of the medical death sentence of an advanced cancer diagnosis. The show depicts his metamorphosis from inoffensive chemistry teacher to feared drug lord and remorseless killer. Driven at first by the desire to save his family from destitution, he risks losing his family altogether because of his new life of crime. In defiance of the tradition that viewers demand a TV character who never changes, Breaking Bad is all about the process of change, with each scene carrying forward the morphing of Walter White into the

How will we respond to the knowledge that we will be dead in six months? Is human life subject to laws as remorseless as chemical equations? When does injustice validate brutal retaliation? Why are drug addicts unsuitable for operating the illegal drug business? How can TV viewers remain loyal to a series where the hero becomes the villain? Does Heisenberg's Principle of Uncertainty rule our destinies? In *Breaking Bad and Philosophy*, a hand-picked squad of professional thinkers investigate the crimes of Walter White, showing how this story relates to the major themes of philosophy and the major life decisions facing all of us.

In *Hamilton and Philosophy*, professional thinkers expose, examine, and ponder the deep and controversial implications of this runaway hit Broadway musical. One cluster of questions relates to the matter of historical accuracy in relation to entertainment. To what extent is *Hamilton* genuine history, or is it more a reflection of America today than in the eighteenth century? What happens when history becomes dramatic art, and is some falsification of history unavoidable? One point of view is that the real Alexander Hamilton was an outsider, and any objective approach to *Hamilton* has to be that of an outsider. Politics always involves a debate over who is on the margins and who is allowed into the center. Then there is the question of emphasizing Hamilton's revolutionary aspect, when he was autocratic and not truly democratic. But this can be defended as
