A study of the unique role played by chess in the Cold War examines the significance of the game as a symbol of Soviet power, from the Russian Revolution, to the epic 1972 contest between Bobby Fischer and Boris Spassky, to the collapse of the Soviet Union.

A crucial decision spared chess Grandmaster David Bronstein almost certain death at the hands of the Nazis--one fateful move cost him the world championship. Russian champion Mark Taimanov was a touted as a hero of the Soviet state until his loss to Bobby Fischer all but ruined his life. Yefim Geller's dream of becoming world champion was crushed by a

bad move against Fischer, his hated rival. Yuri Averbakh had no explanation how he became the world's oldest grandmaster, other than the quixotic nature of fate. Vasily Smyslov, the only one of the five to become world champion, would reign for just one year--fortune, he said, gave him pneumonia at the worst possible time. This book explores how fate played a capricious role in the lives of five of the greatest players in chess history.

The Afghan people are standing at a crucial crossroads in history. Can their fragile democratic institutions survive the drawdown of US military support? Will Afghan women and girls be stripped of their modest gains in freedom and opportunity as the West loses interest in their plight? While the media have largely moved on from these stories, Paula Bronstein remains passionately committed to bearing witness to the lives of

the Afghan people. In this powerful photo essay, she goes beyond war coverage to reveal the full complexity of daily life in what may be the world's most reported on yet least known country. Afghanistan: Between Hope and Fear presents a photographic portrait of this war-torn country's people across more than a decade. With empathy born of the challenges of being an American female photojournalist working in a conservative Islamic country, Bronstein gives voice to those Afghans, particularly women and children, rendered silent during the violent Taliban regime. She documents everything from the grave trials facing the country—human rights abuses against women, poverty and the aftermath of war, and heroin addiction, among them—to the stirrings of new hope, including elections, girls' education, and work and recreation. Fellow award-winning journalist Christina Lamb describes the gains that Afghan

women have made since the overthrow of the Taliban, as well as the daunting obstacles they still face. An eloquent portrait of everyday life, Afghanistan: Between Hope and Fear is the most complete visual narrative history of the country currently in print.

This legendary tournament features 210 hotly contested games, many of them masterpieces of the first rank. The first authoritative English translation from the Russian, this volume was written by one of the leading competitors. interesting stories and easy-to-understand teaching material. This is a revised and expanded edition of a modern chess classic, written by an icon of chess in the 20th century.

David Bronstein was one of the most creative and imaginative grandmasters of chess ever. He came within one game of becoming World Chess Champion.

First published in Russian in 2014 and written by Genna Sosonko - widely recognized as the number one writer on the history of Soviet chess - this is a truly unique book about the life and destiny of the great chess player David Bronstein (1924-2006). Emerging from a challenging background - he narrowly escaped the holocaust in WWII, during which he starved, and his

father spent seven years in a gulag - Bronstein faced Botvinnik in the world championship match in 1951 and nearly defeated him. But this 'nearly' inflicted a wound on David so deep that it would not heal for the rest of his life. Sosonko knew Bronstein well. Their conversations - many of which have made it into this book - not only portray the thoughts and character of one of history's most original grandmasters but also take us back to a time unlike any other in world history. This is not a biography in the traditional sense of the word. Rather, Sosonko's fascinating book asks eternal questions which don't have neat and simple answers. With a foreword to the English edition by Garry Kasparov.
