Brush Up Your Japanese is self-described as "The book that gives the finishing touches to one's knowledge of Japanese."

The author (Richard Showstack) started to teach English to Japanese students more than forty years ago, and at that time he noticed a lot of common mistakes they made, but he also realized the limits of the Japanese English education system at the time. Then, he got a job correcting the English essays of Japanese students over the Internet, and he has now checked more than 25,000 of their papers! When he started to correct the essays, he was dismayed to discover that Japanese students are still making many of the same mistakes that they were making forty-plus years ago! He decided to start keeping a record of those mistakes, and he has compiled a list of 100 mistakes still commonly made by Japanese people when they try to communicate in English.

A rich, exquisite and original anthology that illuminates Japanese travel writing over a thousand years 'Oh journey upon journey, my life is a brief moment, and I cannot hope that we will meet again' Roaming over mountains and along perilous shores, this anthology illuminates over a thousand years of Japanese travel writing. It takes in songs, diaries, tales and poetry, and ranges from famous works including The Pillow Book and the works of Basho to pieces such as the diary of a young girl who longs to return to the capital and her beloved books, or the writings of travelling monks who sleep on pillows of grass. Together they illuminate a long literary tradition, with intense poetic experience at its heart. Translated and edited with an introduction by Meredith McKinney
