This Guide is produced on behalf of the European Science Foundation Asia Committee. The Guide provides a comprehensive survey of researchers, institutes, university departments, museums, organisations, and newsletters in the field of Asian Studies in Europe. The 352 page Guide is published by the International Institute for Asian Studies in co-operation with Curzon. This is the first such guide ever published, and contains highly detailed current information including specialisation by subject and region for each entry. The Guide contains an alphabetical list of 5,000 European Asianists; 1,200 institutes and university departments; 300 museums, organisations, and newsletters.

With over 400 drug monographs, this book covers the technical, practical and legal aspects that you should consider before prescribing or administering drugs via enteral feeding tubes.

Evidence-based thinking in clinical medicine has impacted greatly on the physician's approach to clinical care. Evidence-Based Dermatology introduces and encourages the concept of evidence-based patient care in dermatology. Incorporating a text that is much more than merely the summary of trial data, the authors worked to explore disease mechanisms and treatments in greater depth and detail in order to provide more insight for the reader. In addition to promoting the understanding of the evidence-based philosophy, the authors have focused on some of the fundamentals in dermatology that need to be approached differently. Issues such as the interpretation of clinical research, disease-oriented evidence versus patient-care evidence, and the use of placebo are examined.
