A guide explaining how to use your Canon PowerShot SX10 IS camera's controls to get more effective, interesting, and creative photos.

Expand your artistic vision with HDR photography By artfully blending multiple exposures, you can create images with incredible detail, photos that mimic fine paintings, surrealistic imagery — once you understand the process, your options are virtually endless. This book explains the tools you need to get started and how to create high dynamic range (HDR) images. You learn to evaluate a scene, photograph different subjects for the best HDR results, gain skill with software, and begin a lifetime of exploration. See how HDR compensates for the camera's limited ability to record the visible range of light Examine the necessary camera features and accessories Learn to process HDR images using Photomatix and Photoshop® Elements Learn to create HDR photos from single exposures Experiment with landscapes, cityscapes, interior shots, black-and-white, nighttime photos, and more Save 15% on Photomatix software when you buy this book! Details inside!

These volumes contain the contributions to the Second European Conference on Unsaturated Soils, E-UNSAT 2012, held in Napoli, Italy, in June 2012. The event is the second of a series of European conferences, and follows the first successful one, organised in Durham, UK, in 2008. The conference series is supported by Technical Committee 106 of the International Society of Soil Mechanics and Geotechnical Engineering on Unsaturated Soils. The published contributions were selected after a careful peer-review process. A collection of more than one hundred papers is included, addressing the three thematic areas experimental, including advances in testing techniques and soil behaviour, modelling, covering theoretical and constitutive issues together with numerical and physical modelling, and engineering, focusing on approaches, case histories and geo-environmental themes. The areas of application of the papers embrace most of the geotechnical problems related to unsaturated soils. Increasing interest in geo-environmental problems, including chemical coupling, marks new perspectives in unsaturated soil mechanics. This book will provide a valuable up-to-date reference across the subject for both researchers and practitioners.

Each book covers all the necessary information a beginner needs to know about a particular topic, providing an index for easy reference and using the series' signature set of symbols to clue the reader in to key topics, categorized under such titles as Tip, Remember, Warning!, Technical Stuff and True Story.

Documenting theatrical and stage events under the often dramatic lighting designed for the production provides a number of specific photographic challenges, and is unlike most every other branch of photography. Theatre & Stage Photography provides an overview of basic photography as it applies to "available-light" situations, and will move both basic and experienced photographers through the process of accurately capturing both the production process and the resultant performance.

Virgil Suarez (aka Dr. Cranky) brings you this 120 page book about weathering civilian vehicles contains over 200 photographs and numerous old and new weathering techniques. This is a very useful book to modellers who are interested in modeling civilian vehicles but is not limited to them. The tips and techniques in this book can easily be applied to models of any scale or subject. This book will get the wheels in your head turning. Beginners, novice, and even up to professional modelers will find the contents of this book very valuable. Dr. Cranky covers painting rust, dust, rain, mud, and other techniques that will bring the quality of your models to the next level. This book also includes a gallery of Dr. Cranky and other world renowned modelers work providing inspiration for all modelers.

Covers receipts and expenditures of appropriations and other funds.

Covers cutting-edge techniques for small and large businesses alike. Author is an in-demand consultant with strong media connections.
