Here is a unique book. It describes the theories and processes of repairing and adjusting the modern watch in precise and meticulous detail: a thing which has never been done so completely before in the many books on the same subject. As a text book it is a revelation. Taking nothing for granted, except the ability to read and comprehend a simple description of mechanical processes, de Carle takes his reader through every stage and every operation of watch repairing ...and to deal with them thoroughly is quite a programme - it takes 300 pages containing 24 chapters, two appendices and 553 illustrations. The fine draughtsmanship and accurate technical detail of the illustrations set a new standard. Practical Watch Repairing can justifiably claim to be the best illustrated book on practical horology yet issued, and one of the best of its kind on any subject. The publication of the book marks the beginning of a new epoch in the study of the mechanics of horology.

The very short prequel to Tessa's Pride by Olivia Brynn Cowgirl Tessa McCade has a rare day off from Bradley Equine Ranch, and she's got a plan. She mounts her favorite horse to ride to a secluded spot on the Montana horse ranch with a book, a snack, and a towel for skinny-dipping. When her boss—Joshua Bradley himself—joins her, Tessa knows it will take all her strength to keep her feelings for the man at bay. If there's one thing Tessa didn't plan on today, it's Josh's surprising admission. *Bonus! Includes the first two chapters of Tessa's Pride!*

BPP Learning Media's CISI Masters in Wealth Management are exam focused to allow those working with high net worth clients to gain academic recognition for their competence and keep up-to-date with changes and new practices in the industry

From dust jacket: "Christian missionaries have been operating in India since the 1st century AD when Thomas the Apostle supposedly first set foot in Kerala. The quest of the Christian missionaries to convert the Indian masses to Christianity has been a long and tedious one. They have succeeded in some places and utterly failed in others. . . . This book tries to understand the reason for the relative failure of Christianity to take roots in India." The book also provides in detail exchanges between Christian missionaries and prominent Indians such as Gandhi.

An alien war has engulfed Earth. On the day, Isaac receives his call-up papers a beautiful girl walks into his electrical repair shop. Tragically, the couple is caught up in a bombing raid. A mysterious child healer release's Isaac from his underground tomb, but Chloe is less fortunate. Twenty first century reality is profoundly altered, and after the demon army led by the traitor Oswald collides with the resistance, the survivors are forced into hiding.Isaac and Chloe discover the origins of evil and a solution that could release them from the enemies' toxic grip. Armed with powerful secrets, which are desired by many, the couple begin to fight back. Trusting nobody, Isaac and Chloe, realise that they alone need to negotiate the traps and dangers, and decide in which time, and space that their secrets belong.

This lavishly illustrated book examines Berlin in depth during a period of explosive growth between the two world wars. Between 1871 and 1919, the population of Berlin quadrupled, and the city became the political center of Germany, as well as the turbulent crossroads of the modern age. This was reflected in the work of artists, directors, writers, and critics of the time. As an imperial capital, Berlin was the site of violent political revolution and radical aesthetic innovation. After the German defeat in World War I, artists employed collage to challenge traditional concepts of art. Berlin Dadaists reflected upon the horrors of war, and the terrors of revolution and civil war. Between 1924 and 1929 as the spirit of modernity took hold, jazz, posters, magazines, advertisements, and cinema played a central role in the development of Berlin's urban experience. The concept of the "Neue Frau"--the modern, emancipated woman-helped move the city in a new direction. Finally, Berlin became a stage for political confrontation between the left and the right and was deeply affected by the economic crisis and mass unemployment at the end of the 1920s. This book explores in numerous essays and illustrations the artistic, cultural, and social upheavals in Berlin between 1918 and 1933, and places them in a broader historical framework.

MILK ... to drink, or not to drink ?? is an objective, in-depth, and up-to-date review of the full spectrum of pros and cons. The author leads his discussion through the 'good', the 'bad', and the 'ugly'. Although this approach may seem inappropriate, given the seriousness of the subject, it comfortably describes the range of information and the various points of view regarding this highly controversial question. There is much to say about the 'good', and the author is unbiased in his coverage. Over the years a great deal of 'bad' has also been argued, based on, for example, the vegetarian and animal rights perspective, the 'lactose intolerance' issue, the on-going rBGH controversy, and links with several disease conditions. The author also explores the historical consumption of cow's milk, including the link to explain northern European's light skin coloring, and why some cultures abhor milk products while others favor milk with religious zeal. The author frequently diverges from the central theme to relate an anecdote or to offer insights to a better understanding of human nutrition. A central purpose of the book, however, is to inform the reader, and the public, of the 'ugly' ... very recent research has discovered the presence of the BCM-7 molecule in A1 cow's milk which prompts the body's T-cells to attack the insulin-producing beta cells in the pancreas, thereby promoting diabetes. The correlation of diabetes with consumption of A1 cow's milk in population studies is astonishingly high, and the mechanism involved is identified. Studies have also associated BCM-7 with heart disease, schizophrenia, autism, and even sudden-death-syndrome. A1 milk is produced by Holstein and related breeds. A2 milk, which does not contain BCM-7, is produced by Jersey, Guernsey, and a few traditional breeds. French cows, for example, produce A2 milk. Almost all of the milk produced in the United States is A1 milk.

A memory of love... On her return to the present from a time-travel journey to sixteenth-century Calais, France, college co-ed Arielle Lloyd anticipates a joyful welcome from her immortal fiance, Sebastian Gaulle. She is stunned to discover that he doesn't remember their time together there and wonders, has she lost him forever? Danger from afar... As Sebastian tries to shake loose his disturbing memories and solve the enigma of Arielle's haunting eyes, the Russian Mafia ups the stakes in their deadly game to steal crucial documents from his company. Then an envelope arrives with photos of Arielle. The message is clear: if Sebastian fails to meet their demands, his love will pay the price with her life. A love across all time... Sebastian and his associates join forces with Interpol in a race to thwart the Russians' plans. In the global battle, the Russians have made a serious mistake. They have threatened the beloved of an indestructible immortal, a woman Sebastian only now realizes he has loved across the centuries."
