~~Caterpillar D399 Engine Specifications~~

The Caterpillar D398 (CAT D398) is a diesel engine chosen for a wide spectrum of applications. The V-12, four-stroke-cycle engine is available in turbo-charged and after-cooled configuration. The D398's durable, reliable design gives it conservative ratings and big displacement, and its compact components are easy to maintain. D398.

reliability and excellent fuel efficiency. These engines maintain low operating costs to keep your customers profitable for years to come.

Describes the Diesel and Electric locomotives used on the main line and export mineral railways in Australia and the operating preserved steam locomotives used both on preserved lines and on main lines. Diesel locomotives are listed according to the type of Diesel engine and arranged to show the development of a particular type of locomotive. Entries progressing from lower power to higher power units. This layout shows the

Bookmark File PDF Cat D399 Diesel Engine

Similarity of types used on different systems, particularly in the area of State government railways. The Electric locomotives are grouped by system in chronological order Steam locomotives are organised by wheel arrangement since this brings together similar locomotives from different systems. Covers all the diesel and electric locomotives used by the Australian main line railways whether still in service or not. Many diesel locomotives are now being used for secondary duties by smaller operators or leased by larger operators as required.
