Riddles have been used since the beginning of history to entertain and to break and reaffirm boundaries. Stimulate your mind and have a good time with this collection of riddles. 200+ Riddles Answers Included High-Quality Binding

Orature and Yorùbá Riddles takes readers into the hitherto unexplored undercurrents of riddles in Africa. Because of its oral and all too often ephemeral nature, riddles have escaped close scrutiny from scholars. The strength of the Yorùbá as the focus of this study is impressive indeed: a major ethnic group in Africa, with established connections with the black diaspora in North America and the Caribbean; a rich oral and written culture; a large and diverse population; and an integrated rural-urban society. The book is divided into six chapters for readers' convenience. When read in sequence, the book provides a comprehensive, holistic sense of Yorùbá creativity where riddles are concerned. At the same time, the book is conceived in a way that each chapter could be read individually. Therefore, those readers seeking understanding of a specific type of riddle may target a single chapter appearing most relevant to her/his curiosity.

Can You Solve This? Some would call me a drunkard, since I am always drinking, but I am never thirsty. When I am alive, I don't breathe and am cold, if not colder than death. What am I? What animal doesn't play fair? The Cheetah. What's worse than finding a worm in an apple? Finding half a worm. Hundreds of zany rib-ticklers to challenge puzzler lovers of all ages, with subjects ranging from animals, plants and fruits, to people, love and courtship, and eating and drinking. Hours of entertainment!

Sign In is played on a square grid. The goal is to fill in each cell with numbers from 1 to N, where N is the size of the puzzle's side. No number may appear twice in any row or column. Some digits may be given at the start. If absolute difference between two digits in neighbouring cells equals 1, then they are separated by a sign "+" or "-". If a border between cells contains a sign "+", a digit in a left or upper cell is one lower than a digit in a right or lower cell. If a border between cells contains a sign "-", a digit in a left or upper cell is one bigger than a digit in a right or lower cell. All instances of consecutive digits are shown by these signs. hard brain teasers - hard math riddles - hard brain teasers with answers - hard puzzles - hardest puzzle - worlds hardest puzzle - hard maths puzzles with answers - hard math puzzles - hard brain teasers for adults - hard brain puzzles - hard mind puzzles - hard math riddles for adults with answers - hard math riddles with answers - hard puzzle games - hard math puzzles for adults - hard mathematical puzzles - very hard maths puzzles - hard mathematical riddles with answers - very hard math riddles - hard mathematical riddles

This book studies the motivation of crowdworkers to find out how to attract more people and reach a higher quality of outcomes. The book first proposes a taxonomy for studying the motivation of crowdworkers including the potential influencing factors, different types of motivation, and possible consequences and outcomes related to the motivation. Next, the CWMS questionnaire, an instrument for measuring the underlying motivation of crowdworkers is developed. It considers different dimensions of motivation suggested by the Self-Determination Theory of motivation which is a well-established and empirically validated psychological theory used in various domains. This instrument can be used to study the effect of platform and user characteristics on the general motivation of crowdworkers. Later, the task-specific motivation of crowdworkers is studied in detail: Influencing factors are investigated, subjective methods for measuring them are evaluated, a model for predicting worker's decision on taking a task is proposed, the relative importance of different factors for two populations of crowdworkers is studied, and finally, a model for predicting the expected workload (as one of the major influencing factors) given the task design is proposed.

Kuromasu(from Japanese "kuromasu wa doko da," literally "Where is black cells?"; also known as "Kurodoko") is played on a rectangular grid. Some of these cells have numbers in them. Each cell may be either black or white. The object is to determine what type each cell is.The following rules determine which cells are which: - Each number on the board represents the number of white cells that can be seen from that cell, including itself. A cell can be seen from another cell if they are in the same row or column, and there are no black cells between them in that row or column. - Numbered cells may not be black. - No two black cells may be horizontally or vertically adjacent. - All the white cells must be connected horizontally or vertically. brain teasers with answers - brain teaser puzzles - brain teaser games - brain teasers for adults - maths puzzles with answers - brain puzzles for adults - math puzzles for adults - brain teasers riddles - mind puzzle games - mind puzzles for adults - mind teasers - brain teaser puzzles for adults - fun for the brain - puzzle games for adults - brain busters - math brain teasers - funny brain teasers - brain teasers riddles with answers - logic brain teasers - brain teasers and answers - riddles and brain teasers

Blue and other characters from the TV program present a variety of rhyming riddles, with the answers found at the end of the book by turning a wheel.
