couples meet at a fashionable restaurant for dinner. Between

mouthfuls of food and

over the scrapings of

cutlery, the conversation

remains a gentle hum of

polite discourse. But

behind the empty words,

terrible things need to

be said, and with every

forced smile and every

new course, the knives

are being sharpened.

Each couple has a

fifteen-year-old son.

The two boys are united

by their accountability

for a single horrific

act—an act that has

triggered a police

investigation and

shattered the

comfortable, insulated

worlds of their families.

As the dinner reaches its

culinary climax, the

conversation finally

touches on their

children, and as civility
and friendship

disintegrate, each couple
shows just how far they

are prepared to go to
protect those they love.

This monograph investigates a number of central issues in the Syntax of Adverbs with special reference to Greek in the light of

Kayne's (1994)

Antisymmetry

Hypothesis. It examines

the conditions on the

placement of the various

adverb types, their

licensing requirements,

and their relation to

adjectives. The author

advances an analysis

according to which

adverbs are licensed as

Specifiers of functional

projections in the

clausal domain. As 80

such, they enter a matching relation with the relevant features of the respective functional head. Adverbs are either directly merged at the relevant functional projection (for instance Aspectual and Speaker Oriented adverbs) or alternatively they are moved to this position from the complement

domain of the verb (for

instance manner

adverbs). Furthermore,

the volume examines

the phenomenon of

Adverb Incorporation. It

is proposed that

Incorporation is

obligatory for those VP

internal Adverbs which

are 'structurally non-

complex' in Chomsky's

1995 terms. Finally, the

similarities and

Differences between 80

adverbs and adjectives,
clausal and nominal
structure are

investigated and a
number of asymmetries
between the two are
highlighted.
