of chord construction can be simply broken down into 3 main groups of sound (and one small “odd-ball” group). Each of the 3 main groups has its own subdivisions and the groups are based on one basic chord type each, namely: 1) The MAJOR chord 2) The MINOR chord 3) The DOMINANT 7th chord (The smaller group is based on the DIMINISHED 7th chord).

Chord Construction (Formulas) - Ted Greene

You can build the chords you play on the piano yourself. You start with a root note, the lowest note of the chord, then stack notes on top in intervals to make the type of chord you want, whether that's the popular major and minor chords or the less common augmented, diminished, and suspended chords.
