Scientometrics has been defined as the “quantitative study of science, communication in science, and science policy” (Hess, 1997).

## *Scientometrics - OECD*

Scientometrics is the science of measuring and analysing science. In practice, scientometrics is often

done using bibliometrics which is a measurement of the impact of publications. Modern scientometrics is mostly based on the work of Derek J. de Solla Price and Eugene Garfield.

Scientometrics 2020;124:1081–1097. In this manuscript, we examined whether the publication characteristics of various scientific disciplines exhibit age-related trends. Our analysis was based on two large data sets comprising all major scientific disciplines. The key messages include: 1) The values of measures of individual scholarly performance peak during the Golden Age, but the length of ...
