Collected for the first time, these nearly 150 African American folktales animate our past and reclaim a lost cultural legacy to redefine American literature. Drawing from the great folklorists of the past while expanding African American lore with dozens of tales rarely seen before, The New Annotated African American Folktales revolutionizes the canon like no other volume. Henry Louis Gates Jr. and Maria Tatar assemble a groundbreaking collection of folktales, myths, and legends that revitalize a vibrant African American past untainted by romantic antebellum sentiment or counterfeit nostalgia. Beginning with introductory essays and 20 seminal African tales as historical background, Gates and Tatar present nearly 150 African American stories, among them familiar Brer Rabbit classics, but also stories like "The Talking Skull" and "Witches Who Ride," out-of-print tales from the 1890s Southern Workman, and stories that finally incorporate Caribbean and Latin American literature within the canon. With illuminating annotations and revelatory illustrations, The New Annotated African American Folktales reminds us that stories not only move, entertain, and instruct but, more fundamentally, inspire and keep hope alive. color throughout; 160 illustrations

This book links the questions people ask about why things exist, why the world is the way it is, and whether and how it is possible to change their society or world with the societal myths they develop and teach to answer those questions and organize and bring order to their communal lives. It also is about the need for change in western societies' current organizing concept, classical (Lockean) liberalism. Despite the attempts of numerous insightful political thinkers, the myth of classical liberalism has developed so many cracks that it cannot be put back together again. If not entirely failed, it is at this point unsalvageable in its present form. Never the thought of just one person, the liberal model of individual religious, political, and economic freedom developed over hundreds of years starting with Martin Luther's dictum that every man should be his own priest. Although, classical liberalism means different things to different people, at its most basic level, this model sees human beings as individuals who exist prior to government and have rights over government and the social good. That is, the individual right always trumps the moral and social good and individuals have few obligations to one another unless they actively choose to undertake them. Possibility's Parents argues that Lockean liberalism has reached the end of its logic in ways that make it unable to handle the western world's most pressing problems and that novelists whose writing includes the form and texture of myth have important insights to offer on the way forward.

In their new monograph, *Gender and Short Fiction: Women's Tales in Contemporary Britain*, Jorge Sacido-Romero and Laura M Lojo-Rodriguez explain why artistically ambitious women writers continue turning to the short story, a genre that has not yet attained the degree of literary prestige and social recognition the novel has had in the modern period. In this timely volume, the editors endorse the view that the genre still retains its potential as a vehicle for the expression of female experience alternative to and/or critical with dominant patriarchal ideology present at the very onset of the development of the modern British short story at the turn of the nineteenth century.
