Sebesta, Concepts of Programming Languages, eBook, Global ...

This is a course in comparative programming languages. We learn the fundamental concepts important to the field. We will study the major programming language paradigms: imperative, logic and functional. Among the other topics discussed are syntax, semantics, types and objects, exception handling, and modules. More broadly, it is the study of human to computer communication. Why study programming languages? fosters more careful programming

Florida Tech, CS: Programming Language Concepts (Fall 2020)

It's easier to figure out tough problems faster using Chegg Study.
