THANKS.Guided Study Book: Black Print Version: Newly revised to include the 2011 Edition Reference Tables. This Guided Study Book is a great companion to the Workbook (sold separately). This book is also available in color print for great visual and easier learning of chemistry. This Guided Study Book is available in three cover colors: Blue, Pink and Green. Your book. Your Color. Your Choice. This comprehensive Guided Study Book covers 12 high school chemistry topics. Chemistry concepts that are covered in this Guided Study Book are High School standards. This is a great study book for reviewing, learning and practicing problems on all high school chemistry concepts. Highly recommended for high school classes everywhere. Book Summary: 12 high school chemistry topics. 400 sets of concepts outlined and explained one at a time. 350 example problems with clean, clear, easy-to- follow step-by-step solutions. 400 practice questions grouped by Topics. Thousands more questions in the Workbook. Several diagrams & graphs for enhanced visual learning. Several summary tables for quick review and comparisons of similarities and differences of multiple concepts. The set-by-set grouping of notes by concepts allows for the following benefits to students. Student Benefits: . Pick and choose which concept to study. No need to study the whole topic . Focus and concentrate more effort on concepts you are struggling with. Concept Facts are clearly marked for each concept so students know which information is to be memorized. Concept Facts are clearly marked for each concept so students know what type of problem they should be able to solve. Example problems are given and clearly solved for each concept task so students can follow and be able to solve similar problems . Problems in the Workbook (sold separately) are in the same order as covered in this Guided Study Book. Students can find help easily in this Guided Study book on how to solve any problem in the Workbook. 12 Topics of high school chemistry core curriculum standards covered in this Book: 1. Matter and Energy 2. Periodic Table 3. Atomic Structure 4. Chemical Bonding 5. Formulas and Equations 6. Mole and Stoichiometry 7. Solutions 8. Acids, bases and Salts 9. Kinetics and Equilibrium 10. Organic Chemistry 11. Redox and Electrochemistry 12. Nuclear Chemistry Teacher's Copy / Answer Key. Teacher's copy of the Guided Study Book contains answers to all questions in the book. Answers in the book are clean, clear, bold and highlighted for easy and effortless correcting of work in the Guided Study Book. Because this book is used in chemistry classrooms of many schools, Teacher's Copy can only be purchased through the publisher. Instruction on obtaining Teacher's Copy can be found in the book, or you can visit the Publisher's website for more information. This comprehensive collection of top-level contributions provides a thorough review of the vibrant field of chemistry education. Highly-experienced chemistry professors and chemistry education experts at universities all over the world cover the latest developments in chemistry learning and teaching, as well as the pivotal role of chemistry for shaping the future world. Adopting a practice-oriented approach, they offer a critical view of the current challenges and opportunities of chemistry education, highlighting the pitfalls that can occur, sometimes unconsciously, in teaching chemistry and how to circumvent them. The main topics discussed include the role of technology, best practices, science visualization, and project-based education. Hands-on tips on how to optimally implement novel methods of teaching chemistry at university and high-school level make this a useful resource for professors with no formal training in didactics as well as for secondary school teachers.
