THE CRAFTSMAN STYLE Craftsman Typically a one- to two-story building with a low-pitched, gabled roof (occasionally hipped) with wide, unenclosed eave overhang; roof rafters usually exposed; decorative (false) beams or braces commonly added under gables; full- or partial-width porches with roof supported by tapered square columns; columns and/or

Craftsman Style Guide - Martinez Home Tour

The Craftsman-style home has taken on a variety of forms and regional influences over the years, but its distinctive details are always recognizable. Rolling said the defining features include lots of trim details, from big corbels (carved-wood structural supports) to tapered columns to decorative gables, along with deep front porches and overhanging roofs.

Craftsman Style and Architecture | James Hardie

As I've mentioned before, I'm drawing heavily on American craftsman architecture for the overall look for the exterior of the house. Since it has a large porch, the logical choice for the support posts are tapered columns. The columns are mostly decorative, since the post itself is the structural support. Still, they do provide protection for the posts and really dress up the appearance.

How To Make Craftsman Style Tapered Columns - IBUILDIT.CA

Tapered Craftsman Tapered Craftsman Style Columns can be used over a brick or rock pedestal. Installation of the column before the masonry allows for load bearing capability of a 4x4 post. The mason can easily add mortar to the base of the tapered column or use as non-load bearing.
