Crash Course: Muscles, Bones and Skin

The 'Crash Course' series has been written by students, for students which ensures that it is ideal for today's curriculum. Each volume is a systems-based presentation of integrated medical science, and includes clear, straightforward diagrams.

An all-in-one guide to the human body! Anatomy 101 offers an exciting look into the inner workings of the human body. Too often, textbooks turn the fascinating systems, processes, and figures of anatomy into tedious discourse that even Leonardo Da Vinci would reject. This easy-to-read guide cuts out the boring details, and instead, provides you with a compelling lesson in anatomy. Covering every aspect of anatomical development and physiology, each chapter details the different parts of the human body, how systems are formed, and disorders that could disrupt bodily functions. You'll unravel the mysteries of anatomy with unique, accessible elements like: Detailed charts of each system in the body Illustrations of cross sections Unique profiles of the most influential figures in medical history From cell chemistry to the respiratory system, Anatomy 101 is packed with hundreds of entertaining facts that you can't get anywhere else!

The new series of Crash Course continues to provide readers with complete coverage of the MBBS curriculum in an easy-to-read, user-friendly manner. Building on the success of previous editions, the new Crash Courses retain the popular and unique features that so characterised the earlier volumes. All Crash Courses have been fully updated throughout. More than 200 illustrations present clinical, diagnostic and practical information in an easy-to-follow manner Friendly and accessible approach to the subject makes learning especially easy Written by students for students - authors who understand exam pressures Contains 'Hints and Tips' boxes, and other useful aide-mé moires Succinct coverage of the subject enables 'sharp focus' and efficient use of time during exam preparation Contains a fully updated self-assessment section - ideal for honing exam skills and self-testing Fully updated self-assessment section - ideal for current examination practice! Includes useful 'Learning Objectives' at the start of each chapter. Includes enhanced artwork programme and improved radiological images. Fully updated to include feedback from hundreds of students! Now celebrating over 10 years of success - Crash Course has been specially devised to help you get through your exams with ease. Completely revised throughout, the new edition of Crash Course is perfectly tailored to meet your needs by providing everything you need to know in one place. Clearly presented in a tried and trusted, easy-to-use, format, each book in the series gives complete coverage of the subject in a no-nonsense, user-friendly fashion. Commencing with 'Learning Objectives', each chapter guides you succinctly through the topic, giving full coverage of the curriculum whilst avoiding unnecessary and often confusing detail. Each chapter is also supported by a full artwork programme, and features the ever popular 'Hints and Tips' boxes as well as other useful aide-m é moires. All volumes contain an up-to-date self-assessment section which allows you to test your knowledge and hone your exam skills. Authored by students or junior doctors - working under close faculty supervision - each volume has been prepared by someone who has recently been in the exam situation and so relates closely to your needs. So whether you need to get out of a fix or aim for distinction Crash Course is for you!

Anatomy: A Crash Course teaches you everything you need to know about your own anatomy, its body parts, systems, fantastic functions and flaws. The book is divided into four chapters, covering: The head and neck The chest The abdominopelvic region The back and limbs. Each chapter contains an overview and thirteen illustrated topics, each broken down into small, digestible chunks. 'Gross anatomy' depicts the features and function of the body part, while 'Clinical anatomy' reveals what happens when things go wrong. Finally, 'Dissection' provides the unusual and lesser-known secrets of our bodies. With an introduction to the history of anatomy, an illustrated timeline and biographies, plus feature spreads covering topics from the language of anatomy to electrochemical signalling, this is the perfect crash course for budding anatomists.

NEW! REA 's ATI TEAS Crash Course® Perfect for nursing and allied health program applicants In August 2016, the ATI TEAS exam replaced the TEAS V. The ATI TEAS, already the most widely-used nursing school admission exam in the U.S., is now also used for allied health program admission nationwide. REA 's ATI TEAS Crash Course® is aligned with the most recent exam changes to the TEAS, or Test of Essential Academic Skills. Our ATI TEAS Crash Course® features easy-to-read review chapters that cover every exam objective in reading, mathematics, science, and English and language usage. A full-length online practice exam comes with automatic scoring and detailed explanations of answers. Helpful diagnostics pinpoint where test candidates are strongest and where they need to focus their study. The new ATI TEAS allows for one unified test to cover BSN, ADN, PN, and Allied Health programs. The ATI TEAS test blueprint has been revised to align with evolving developments in the nursing field and the curriculum, creating different points of emphasis on the test. In addition, the number of questions allotted to each content area has been changed, and examinees now may use an on-screen calculator. About REA 's Prep: - A complete ATI TEAS course in a concise, time-saving format - Targeted review covers only the material that will actually be tested - Strategies for answering every type of question - Online practice exam pinpoints your strengths and weaknesses

Crash Course – your effective every day study companion PLUS the perfect antidote for exam stress! Save time and be assured you have all the core information you need in one place to excel on your course and achieve exam success. A winning formula now for over 15 years, each series volume has been fine tuned and fully updated, with an improved layout tailored to make your life easier. Especially written by senior medical students or recent graduates – those who have just been in the exam situation – with all information thoroughly checked and quality assured by expert faculty advisers, the result are books which exactly meet your needs and you know you can trust. Each provides an integrated approach to the subject by linking together topics such as anatomy, development, histology, physiology and pharmacology. Diseases and complaints, clerking, clinical assessment and examination, common skills and further investigations are also covered. Commencing with clear 'Learning Objectives', every chapter guides you succinctly through the topic, giving full coverage of the curriculum whilst avoiding unnecessary and often confusing detail. A fully revised self-assessment section matching the latest exam formats is also included.In this edition, Crash Course Endocrinology has been carefully revised to further reflect the requirements today 's medical curriculum, including enhanced coverage of the essential area of diabetes. More than 130 illustrations present clinical, diagnostic and practical information in an easy-to-follow manner Friendly and accessible approach to the subject makes learning especially easy Written by students for students - authors who understand exam pressures Contains ' Hints and Tips ' boxes, and other useful aide-m é moires Succinct coverage of the subject enables ' sharp focus ' and efficient use of time during exam preparation Contains a fully updated self-assessment section - ideal for honing exam skills and self-testing Self-assessment section fully updated to reflect current exam requirements Contains ' common exam pitfalls ' as advised by faculty Crash Courses also available electronically! Online self-assessment bank also available - content edited by Dan Horton-Szarl! Now celebrating over 10 years of success - Crash Course has been specially devised to help you get through your exams with ease. Completely revised throughout, the new edition of Crash Course is perfectly tailored to meet your needs by providing everything you need to know in one place. Clearly presented in a tried and trusted, easy-to-use, format, each book in the series gives complete coverage of the subject in a no-nonsense, user-friendly fashion. Commencing with 'Learning Objectives', each chapter guides you succinctly through the topic, giving full coverage of the curriculum whilst avoiding unnecessary and often confusing detail.
