Abstract This article discusses pornographic elements in Crash, J. G. Ballard's controversial 1973 novel about "the perverse eroticism of the car-crash", situating the novel in relation to the debate in Britain in the late 1960s and early 1970s about the availability of pornography.

The Definitive Cult, Postmodern Novel—a Shocking Blend of Violence, Transgression, and Eroticism Reissued with a New Introduction from Zadie Smith When J. G. Ballard, our narrator, smashes his car into another and watches a man die in front of him, he finds himself drawn with increasing intensity to the mangled impacts of car crashes. Robert Vaughan, a former TV scientist turned nightmare angel of the expressway, has gathered around him a collection of alienated crash victims and experiments with a series of autoerotic atrocities, each more sinister than the last. But Vaughan craves the ultimate crash—a head-on collision of blood, semen, engine coolant, and iconic celebrity. First published in 1973, Crash remains one of the most shocking novels of the twentieth century and was made into an equally controversial film by David Cronenberg.

The definitive cult, post-modern novel - a shocking blend of violence, transgression and eroticism.

Robert Vaughan, a former TV scientist turned nightmare angel of the expressway, has gathered a collection of alienated crash victims and experiments with a series of autoerotic atrocities, each more sinister than the last. But Vaughan craves the ultimate crash--a head-on collision of blood, semen, engine coolant, and iconic celebrity. First published in 1973, *Crash* remains one of the most shocking novels of the 20th century.

David Cronenberg's *Crash* (1996) brought down a storm of controversy and opprobrium when it was first screened in London. And yet it's a cool, controlled, formal film, unsensational, more analytic than titillating, a brilliant exposé of modern pathologies. It has almost none of the violence and explicit sexual content of the J.G. Ballard novel from which it is adapted. What is the relationship between Ballard himself and the character 'James Ballard' in *Crash*? In this book, which includes an exclusive and revealing interview with Ballard, Sinclair explores the uncanny temporal loop which connects film and novel. If Cronenberg's 'adapted' *Crash*, he also absorbed it, ingested it, made it into something new. But, on the other hand, the novel controls the film, or uses the film to disguise its truly subversive intent. And, for Sinclair, there are more startling permutations still. To what extent, for example, is *Crash* a premonition of some of the more remarkable media events of recent times?

Ballard's books have remained fresh decades after they were first published, and the thoughts collected in *J.G. Ballard: Quotes* have worn equally as well. Small enough to fit in a pocket, this book brings together J. G. Ballard's trenchant thoughts on music, film, celebrity, the rise of corporate media, the death of reality, and much more. Grouped by topics such as "Sex: Relationships, Sex x Technology equals the Future, Pornography" and "Surrealism, Imagination," these quotes are both concise and clear, and provide a strong beacon for readers who are used to a baffling daily assault of advertisements, phone calls, and e-mails. They are also an excellent resource to help readers better understand Ballard's novels, which stand among the most visionary, provocative literature of the 20th century. A Ballardian glossary, the essay "Guide to Virtual Death," and a bibliography round out this excellent resource.

The author of such novels as "Empire of the Sun" and "Crash" recalls his childhood, his first attempts at science fiction, and his life as a single father after the premature death of his wife.

What could a depressed soldier, a bloodthirsty journalist, a strange dog, a writer in the making, a depressive commissioner, a hitman, a stripper and a poet possibly have in common? Well, they all live in Babylon, a city where everything is possible, including the impossible. The Babylonian Trilogy is a novel divided in three loosely related parts, each dealing with a particular aspect of the bizarre metropolis. In *The Birth of Television* according to Buddha, a collection of characters try to make some sense of their lives through the cacophony of a seemingly

A war-ravaged Beirut is the setting for the title story of this visionary collection by J. G. Ballard, a tale in which a young street fighter inadvertently discovers how to bring an end to the bloodshed only to find that his solution is all too effective as far as some supposedly neutral observers are concerned. Other stories in War Fever feature an assassination plot against an American astronaut, the leader of an authoritarian religious movement; a man who is destroyed by a car crash and resolves never to leave his apartment again; and the survivor of a toxic-waste ship wrecked on a deserted Caribbean island.
