The Oral History of "Terminator 2: Judgment Day," by Alan Siegel ... Anthony Fauci | Seth Berkley | soundbites from Michael Hinojosa, Audrey Fix Schaefer and Brian Niccol.

In the tiny town of Patience, California, newcomer Dr. Abby Dolan has noticed a frightening syndrome among her emergency room patients. It begins with a baffling, seemingly minor set of symptoms, but builds relentlessly until it plunges its victims into insane, murderous rages. As she searches for clues to this deadly mystery, Abby's superiors make it clear her probing is unwelcome. Soon Abby will learn just how high the cost of the truth may be--and how far someone will go to keep a lethal secret. But she may not find the answer until it's too late to save her patients, her career...her life.

As Dr. Abby Dolan searches for the cause of a mysterious malady driving her emergency room patients into a murderous rage, her superiors put her own life in peril. By the author of *The Silent Treatment*. Reprint. PW.

Dr. Eric Najarian. He's young, talented, and ambitious. He has all the qualities they're looking for at White Memorial Hospital. He doesn't know he's being watched. Judged. An elite clique of medical professionals thinks he has what it takes to join their secret club. All the young doctor has to do is agree to play by their rules. But Eric has already seen too much. A missing corpse. An unspeakable mutilation. A brutal abduction. It's only the beginning of a plot of terrifying evil. A sinister plan the group will stop at nothing to hide. And if Eric refuses to become their colleague--he will be their next victim.

"Reinvents the medical thriller." *Library Journal* Dr. Sarah Baldwin races to a Boston hospital with a young woman whose normal labor has suddenly become a matter of life and death. As she struggles to save both mother and baby, she doesn't know that two other women have already died under horrifying identical circumstances. And so begins Sarah's own nightmare, as she learns that the prenatal herbal vitamins she prescribed are the only thing these women have in common. Soon Sarah is fighting to save her career, her reputation--her life. For she's certain there must be some unknown factor linking these women, and as she gets closer to the truth, it becomes clear that someone will do anything--even murder--to keep a devastating secret.

The master of medical suspense takes you to prestigious Boston Heart Institute, where some patients are dying to get well --A highly entertaining tale of greed and medicine run amok." *Chicago Tribune* After a troubled past, Dr. Brian Holbrook has been given a second chance to prove himself. At state-of-the-art Boston Heart Institute, he's been chosen to join the medical team testing a new miracle drug. The initial results are so promising that Brian pushes to get his father--who suffers from a dangerous heart condition--accepted into the study. But Brian is beginning to suspect his superiors are hiding something. Why are crucial records disappearing? Why did a patient making startling progress suddenly die? Is the miracle drug a prescription for death? The answers could cost Brian more than his career. For at Boston Heart Institute, knowing too much is the quickest way to the morgue. Praise for *Miracle Cure* --Packs plenty of heart-stopping action." *Associated Press* --A fast-paced lively thriller." *Boston Sunday Herald*

Toby is eight years old. He had a routine operation. It was fine. Now he's gone home to terror. Months have passed. But Toby still bursts into tortured screams. Because something is very wrong. Toby can remember every moment of the operation. All the trauma. All the pain. He relives every horrifying detail of surgery while he's awake. Now someone must expose the unspeakable truth about this hospital. Or else an innocent child will die. And he won't be the last. The next victim is being wheeled into surgery right now.

A husband and wife race to find a cure for the disease that has inspired a serial killer to terrorize Manhattan in this classic medical thriller from the bestselling author and creator of the hit Netflix drama *The Stranger*. They're one of the country's most telegenic couples: beloved TV journalist Sara Lowell and New York's hottest basketball star, Michael Silverman. Their family and social connections tie them to the highest echelons of the political, medical, and sports worlds--threads that will tangle them up in one of the most controversial and deadly issues of our time. In a clinic on Manhattan's Upper West Side, a doctor has dedicated his life to eradicating a divisive and devastating disease. One by one, his patients are getting well. One by one, they're being targeted by a serial killer. And now Michael has been diagnosed with the disease. There's only one cure, but many ways to die...

Returning to his Virginia home to investigate the tragic deaths of his wife and father, a young maverick doctor encounters a series of suspicious accidents that reveal a bizarre syndrome that could place countless lives at risk.

With his signature blend of suspense and science, Robin Cook delivers an electrifying page-turner that delves into the murky ethics of developing genomic medicine and modern-day health care... As her relationship with Dr. Jack Stapleton begins to unravel, Dr. Laurie Montgomery starts investigating the inexplicable deaths of young, healthy people after successful routine surgery. She discovers that the deaths might be intentional--the work of a remarkably clever serial killer with a shocking motive. And then Laurie is hit with more devastating news: she might be carrying the genetic marker for breast cancer. As the need for answers becomes more urgent, Laurie is pulled into the nightmare as a potential victim herself. With time winding down, she and Jack must put aside the tensions between them in a race to connect the dots--and save Laurie's life...

She wanted to save lives. The killer wanted to end hers. The first warning was triggered hundreds of miles away. The second warning exploded only yards from where she and her son stood. Now Kate Denby realizes the frightening truth: She is somebody's target. Danger has arrived in Kate's backyard with a vengeance. And the gifted scientist is awakening to a nightmare world where a ruthless killer is stalking her...where her innocent son is considered expendable...and where the medical research to which she has devoted her life is the same research that could get her killed. Her only hope of protecting her family and making that medical breakthrough is to elude her enemy until she can face him on her own ground, on her own terms--and destroy him.
