Are Americans making under \$50,000 a year compelled to navigate the legal system on their own, or do they simply give up because they cannot afford lawyers? We know anecdotally that Americans of median or lower income generally do without legal representation or resort to a sector of the legal profession that - because of the sheer volume of claims, inadequate training, and other causes - provides deficient representation and advice. This book poses the question: can we - at the current level of resources, both public and private - better address the legal needs of all Americans? Leading judges, researchers, and activists discuss the

The book brings the history of the sweatshop into focus by placing it under a global lens. Uniting some of the best recent work in the inter-disciplinary field of "sweatshop studies", this collection traces the changing meanings of the sweatshop in today's global world. The essays reveal how the history of the American sweatshop is inexorably intertwined with global migrations of capital, labour, ideas, and goods.
