The latest edition of the top-selling handguns annual presents new reports on handguns for field and personal protection use. The comprehensive catalog section is fully updated, expanded, and well illustrated, displaying today's commercially available handguns. New feature articles provide the latest on trends, gun tests, selfdefense, and handgun hunting. The catalog section covers currently manufactured semi-custom handguns and commercial centerfire, rimfire, and blackpowder pistols, as well as airguns. Plus an accessories section covers handgun grips, sights, scopes, metallic reloading presses, and spotting scopes. An essential reference section gives enthusiasts the NRA Compendium of Firearms Laws, the NRA Right-to-Carry Reciprocity Guide, a directory of the handgunning trade, and listings of arms associations, periodicals, and books. - Extensively updated handgun

catalog section - Expanded semi-custom handguns and handgun grips coverage - Latest trends, gun tests, self-defense, and handgun hunting

With over 50,000 distinct species in sub-Saharan Africa alone, the African continent is endowed with an enormous wealth of plant resources. While more than 25 percent of known species have been used for several centuries in traditional African medicine for the prevention and treatment of diseases, Africa remains a minor player in the global natural products market largely due to lack of practical information. This updated and expanded second edition of the Handbook of African Medicinal Plants provides a comprehensive review of more than 2,000 species of plants employed in indigenous African medicine, with full-color photographs and references from over 1,100 publications. The first part of the book contains a catalog of the plants used as ingredients for the preparation of traditional remedies, including their medicinal uses and the parts of the plant used. This is followed by a pharmacognostical profile of 170 of the major herbs, with a brief description of the diagnostic features of

the leaves, flowers, and fruits and monographs with botanical names, common names, synonyms, African names, habitat and distribution, ethnomedicinal uses, chemical constituents, and reported pharmacological activity. The second part of the book provides an introduction to African traditional medicine, outlining African cosmology and beliefs as they relate to healing and the use of herbs, health foods, and medicinal plants. This book presents scientific documentation of the correlation between the observed folk use and demonstrable biological activity, as well as the characterized constituents of the plants.

This book is a captivating and highly informative guide to the techniques of being effective as a hunter with a modern precision air rifle in today's countryside.
