(Book). After four years producing award-winning sample collections, Sample Magic shares the secrets of house music production in this 144-page full-color book packed with hundreds of walk-throughs, hints, tips and insights from some of the biggest names in the industry. All parts of the production process are covered, including: making beats, drum sounds, bass lines, structure, instrumentals, FX, mixing, vocals, mastering, remixes, programming ideas and more. Every style of house is covered, from minimal to tribal, electro to progressive, soulful to jackin'. In-depth tutorials reveal the tricks of the pros, with step-by-step tutorials using Logic, Cubase and Ableton. A bonus DVD includes 600+MB of exclusive samples to get you started. Written by Marc Adamo (DJ Magazine , Future Music) with contributions from Wolfgang Gartner, Way Out West, Sharooz and a foreword by Mark Knight, this is the first time the secrets of house music have ever been fully revealed.

You might be extremely knowledgeable about the software that you use, have a good understanding of your own genre, and even have a good basic understanding of music theory. However, this does not necessarily mean that you can write effective music tracks. You need another kind of knowledge as well – the knowledge of composition.This friendly guide explains the basics of composing songs and music on the computer using any music creation and recording program, whether you choose Reason, Live, Cubase, Logic, Pro Tools, Digital Performer, Finale, Sibelius, FL Studio, SONAR, or anything else. It's not as hard as it sounds, and this book eases the learning curve so you'll be making music in no time. You'll quickly learn how to program rhythm and drums, create basslines and melodic leads, and use FX and samples. You'll also learn about mixing and mastering your track and distributing it to a mass audience. Composition for Computer Musicians explains it all while showing you the basics of music theory throughout so you'll be sure you're not just making noise on the computer – you're using your computer to make professional-sounding music.
