Trek Lit Reviews: Death in Winter

Star trek at its best is emotionally binding in its humanity across space and time. I really enjoyed death in winter for the love, intrigue, hope and political battling it delivered. Like HOMECOMING (074346754X) did for Star Trek Voyager and AVATAR (074340050X) did for Star Trek: Deep Space Nine, DEATH IN WINTER picks up the Star Trek: The Next Generation story after the TV/movies are complete and tells all-new stories about favourite Next Generation characters and their subsequent lives. After the fall of Shinzon (as seen in the feature film, STAR TREK: NEMESIS) the elite of the Romulan Empire are battling over who will seize control. Caught up in this struggle are the Kevrata, a once proud people, now strangled under Romulan domination. When a biogenetic disease threatens to wipe out their race, Starfleet assigns its new Chief Medical Officer, Dr Beverly Crusher, to aid the populace. But when she suddenly goes missing and is presumed dead, Jean-Luc Picard must race to try and locate Crusher and help find a cure for the disease that could kill millions.

When Captain Jean-Luc Picard of the Starship Enterprise learns Doctor Beverly Crusher has been declared missing and presumed dead, he travels to the remote planet of Kevratas, refusing to believe the woman he loves is gone and hoping to find her and bring her home again.

An electrifying thriller starring Captain Jean-Luc Picard set in the Star Trek: The Next Generation universe. Captain Jean-Luc Picard, his ship repaired, must now reassemble his crew. With the departure of both William Riker and ship's counsellor Deanna Troi, the captain must replace his two most trusted advisors. He chooses a Vulcan, a logical choice, and for his new first officer, Worf. But the Klingon refuses the promotion and the new ship's counsellor appears to actively dislike Worf. A simple shake-down mission should settle everything. Except that once again, the captain hears the song of the Borg collective. Admiral Janeway is convinced that the Borg have been crushed and are no longer a threat. Picard believes she is wrong, and that if the Enterprise doesn't act the entire Federation will be under the domination of its most oppressive enemy.

Captain Jean Luc Picard accepts a courageous mission which he soon finds could be a deadly trap in this Star Trek: The Next Generation novel. In 1893 a time-traveling Jean-Luc Picard encountered a long-lived alien named Guinan, who was posing as a human to learn Earth's customs. During this "first encounter," Picard saved Guinan's life, a favor she would never forget. Five centuries later, Captain Picard, now commander of the Starship Enterprise ™, brought Guinan aboard as the ship's "bartender." The hope was that her wisdom and inner peace would provide a moral grounding for Picard's crew as they experienced the dangers of space. Because he hadn't yet made his trip through time, Picard had no knowledge of his nineteenth-century meeting with Guinan. But he did remember a different first encounter with the mysterious El-Aurian—a tumultuous adventure in which Picard and Guinan would risk their lives in a maze of interplanetary intrigue, with the future of the known universe at stake. This is the story of that fateful meeting, and of a Guinan very different from the woman we think we know—a person wracked by pain and longing, shaken to the roots of her soul. A Guinan who yearns for oblivion.

After facing the Borg menace, the crew of the U.S.S. Enterprise is looking forward to a little exploration when the enigmatic Q informs them that the universe is at stake if they don't unravel the mystery of a strange planet in this Star Trek: The Next Generation novel. Nearly two decades ago, Jean-Luc Picard took command of the U.S.S. Enterprise NCC-1701-D, knowing it was an honor without equal. On her first mission, the Enterprise was sent to Farpoint Station for a simple, straightforward investigation. Perfect for a crew that had never served together. Then there was Q: an omnipotent lifeform that seemed bent on placing obstacle after obstacle in the ship's—and in particular in Picard's—way. And it hadn't ended with that first mission. When he was least expected, Q would appear. Pushing, prodding, testing. At times needling captain and crew with seemingly silly, pointless, and maddening trifles. Then it would turn all too serious, and the survival of Picard's crew was in Q's hands. Why was it today that Picard was remembering the day he took command of the Enterprise-D? Now he commanded a new ship, the Enterprise-E, with a different crew. But Picard couldn't shake the feeling that something all too familiar was going on. All too awful. All too Q.

They said it couldn't be done ... all the myriad worlds which have been sought out and explored through more than 500 television episodes and nine Star Trek movies, mapped, illustrated and brought to life in the pages of a comprehensive Star Trek atlas. From the comparatively crowded space of the Alpha and Beta Quadrants, home to Earth and Vulcan, Bajor and Betazed, the Cardassian Union and the Romulan and Klingon Empires; to the distant Gamma Quadrant controlled by the Dominion; to the far reaches of the Delta Quadrant, home space of the Borg, where of Federation explorers only the crew of the USS Voyager has ever been; NEW WORLDS, NEW CIVILIZATIONS catalogues peoples and planets from all four corners of the galaxy. Ever wondered where the blue-skinned Bolians originated from? Or what it is like on the permanently frozen homeworld of the bloodless Breen? From the first world that the first away team landed on under the command of Christopher Pike in the original pilot episode 'The Cage' (a world that has been off-limits to the Federation ever since), to the world of the Ba'ku as seen in 'Star Trek: Insurrection', all these and many more are described and depicted in all their fascinating detail by a team of star-studded contributors. Produced in the finest tradition of bestselling Star Trek illustrated reference from Pocket Books such as The Art of Star Trek and Where No Man Has Gone Before, NEW WORLDS, NEW CIVILIZATIONS will be an essential addition to every Trekker's shelves.

The Stargazer is sent on a mission to investigate the tales of a pair of visitors proclaiming to be descendants of survivors of the Valiant, presumed lost in an attempt to cross the Galactic Barrier more than three hundred years earlier. On the edge of the galaxy, the Stargazer is ambushed by Nuuyad warships, leaving her second officer, Lieutenant Commander Jean-Luc Picard, with his first command, as his captain and first officer were casualties of the unexpected melee. Now trapped on the wrong side of the Barrier, beyond hope of any help from Starfleet and the commanding officers he once served, Picard finds himself isolated and under siege, the crew's trust his to win or lose. He is caught between the suspicions of his mysterious charges and his bond with the stunningly beautiful and psychically gifted woman, which could be a bridge between the Federation's past and his singular future. The fate of his own crew and possibly all of Starfleet weightily seated upon his inexperienced shoulders, Picard wrestles with his dilemma. Can he trust her? Can he trust himself? Within such unforgiving fires, a future commander is forged.
