Paul Elbourne This book argues that definite descriptions ('the table', 'the King of France') refer to individuals, as Gottlob Frege claimed. This apparently simple conclusion flies in the face of philosophical orthodoxy, which incorporates Bertrand Russell's theory that definite descriptions are devices of quantification.

that definite descriptions ('the table', 'the King of France') refer to individuals, and offers a new and radical account of the semantics of pronouns. He draws on a wide range of work, from Frege, Peano, and Russell to the latest findings in linguistics, philosophy of language, and psycholinguistics.
