Letting Go describes a simple and effective means by which to let go of the obstacles to Enlightenment and become free of negativity. During the many decades of the author’s clinical psychiatric practice, the primary aim was to seek the most effective ways to relieve human suffering in all of its many forms. The inner mechanism of surrender was found to be of great practical benefit and is described in this book. Dr Hawkins’s previous books focused on advanced states of awareness and Enlightenment. Over the years, thousands of students had asked for a practical technique by which to remove the inner blocks to happiness, love, joy, success, health and, ultimately, Enlightenment. This book provides a mechanism for letting go of those blocks. The mechanism of surrender that Dr Hawkins describes can be done in the midst of everyday life. The book is equally useful for all dimensions of human life: physical health, creativity, financial success, emotional healing, vocational fulfillment, relationships, sexuality and spiritual growth. It is an invaluable resource for all professionals who work in the areas of mental health, psychology, medicine, self-help, addiction recovery and spiritual development.

The journey from stress to peace is not only possible, it is within reach. Hawkins reminds us that the sunshine is always present, and becomes visible when the clouds disappear. Letting go accelerates our growth in all areas of our life. This is the bestseller of our company. Absolutely recommended.

Este es el  ltimo libro publicado en espa ol del doctor David Hawkins, pionero de la medicina y de la investigaci n de la conciencia, y maestro de Un curso de milagros. Bas ndose en su experiencia personal y en sus m s de cuarenta a os de pr ctica cl nica, el doctor Hawkins nos propone trabajar conjuntamente con las herramientas del perd n y el dejar ir para mantener en todo momento la paz mental y la alegr a, y facilitar la curaci n. Este viaje que nos lleva del estr s a la paz no solo es posible, sino que est  a nuestro alcance. Como nos recuerda el autor, el sol, siempre radiante, se hace visible cuando las nubes se despejan.

This is the seventh book in a progressive series based on the revelations of consciousness research. It describes in detail how to discern not only truth from falsehood but also the illusion of appearance from the actual core of reality. The text explains how to differentiate perception from essence, and thereby enables the reader to resolve the ambiguities and classical riddles that have challenged mankind for centuries and baffled the best minds in history. While modern technologies have provided a phethora of new toys and conveniences, the basic problems of daily existence remain. This book provides the tools to survive and regain fundamental autonomy and inner harmony while living with the complexities of the modern world.

The now widely known Map of calibrated levels of Consciousness was presented in Power vs. Force in 1995 and has been translated into all the world’s major languages. This was followed by The Eye of the I (2001), I: Reality and Subjectivity (2003), and Truth vs. Falsehood (2005), which explored the levels of Truth reflected throughout society. Transcending the Levels of Consciousness returns to the exploration of the ego’s expressions and inherent limitations and gives detailed explanations and instructions on how to transcend them. As with the reading of Dr. Hawkins’s previous books, the reader’s level of consciousness is advanced as a consequence of exposure to the information itself. This opens up avenues to the relief of suffering for oneself and others, which fulfills the purpose of the work and the intention to facilitate the reader’s own Enlightenment.

Chakras are subtle energy centers that affect all levels of your being: physical, psychological, and spiritual. In this pocket-size hardcover guide, discover why these spinning wheels of energy are the key to living at your highest potential, with tips for using chakras to: Heal from physical and psychological wounds Express feelings easily and productively Transform work into a joyful vocation Solve financial and career difficulties Free repressed emotions Deal with life’s puzzles and predicaments Soothe the heart and create more loving relationships

In this fascinating book, Gary Renard and his Ascended Master Teachers, Arten and Pursah, teach you how to integrate advanced spiritual principles into your everyday life. Doing so leads beyond theory to an experience of the Divine and the undoing of the ego. Your progress will be accelerated to such a degree that, with continued practice, you can’t help but stop the need to reincarnate . . . once and for all. Like Gary’s first book, The Disappearance of the Universe, this work elaborates on the teachings of two spiritual classics, The Gospel of Thomas and A Course in Miracles. By focusing on a unique brand of quantum forgiveness, rather than the old-fashioned kind, and taking the understanding of the importance of thought up to a whole new level, your goal will become nothing less than to break the cycle of birth and death.

What blocks spiritual progress? And how do we transcend these blocks? The spiritual teachings of David R. Hawkins on the nature of consciousness, spirit, and ego are known worldwide by students seeking to realize spiritual Truth. As a mystic, Dr. Hawkins has infused the truths found in the precepts of Western religion with the core of Eastern philosophy, bridging the familiar, physical world to the nonlinear, spiritual domain. This collection of passages, carefully selected from Dr. Hawkins’s extensive writings, offers readers a new contemplation for each day. Any one of these passages, fully understood, can elevate one’s level of consciousness.

This is the second volume of a trilogy that began with Power vs. Force and will be completed in the year 2002 by the publication of the third volume entitled I: Reality and Subjectivity. The Eye of the I (which calibrates at 950) is more advanced than Power vs. Force (which calibrates at 850) and brilliantly reveals the very core of the spiritual process critical to the state of Enlightenment. The intrinsic power of the information provided in this startling classic is sufficient of itself to elevate the consciousness of the reader. This likelihood has been anticipated and provided for by preparatory recontextualizations. Included are verbatim dialogues with advanced students, instructions, and explanations that illuminate the spiritual teachings. The Eye of the I is a brilliant work that dissolves the barriers between the known and the unknown, between science and spirituality, and between the Newtonian linear paradigm of the ego and the nonlinear reality of Enlightenment. With the resolution of the self, the Self shines forth and reveals one’s true identity.

Imagine!what if you had access to a simple yes-or-no answer to any question you wished to ask? A demonstrably true answer. Any question . . . think about it.  from the Foreword We think we live by forces we control, but in fact we are governed by power from unrevealed sources, power over which we have no control.  from the author’s Preface The universe holds its breath as we choose, instant by instant, which pathway to follow; for the universe, the very essence of life itself, is highly conscious. Every act, thought, and choice adds to a permanent mosaic; our decisions ripple through the universe of consciousness to affect the lives of all.  from Power vs. Force "[A] beautiful gift of writing . . . [You] spread joy, love, and compassion through what you write. The fruit of these three is peace, as you know . . ."  Mother Teresa ". . . particularly timely . . . a significant contribution to understanding and dealing with the problems we face today."  Lee Iacocca "I especially appreciate [the] research and presentation on the attractor patterns of business . . ."  Sam Walton "Overwhelming! A masterpiece! A lifetime work!"  Sheldon Deal, President, International College of Applied Kinesiology
