Marine & Industrial Engines

This Dr. Diesel™ Tech Tip, outlines how to change Deutz 1011/2011 Timing belts in 13 easy steps. The Deutz Model 1011 and 2011 series engines don't rely upon cast iron timing gears like most industrial engines. Rather they use a timing belt.

Access Free Deutz Engine 2011

This belt should be changed every 800 to 1,000 hours Because the engine is an interference fit engine, if the belt fails the pistons will hit the head and cause expensive damage.
