Written by an eminent authority on the Renaissance, these classic essays deal not only with Paul Kristeller's specialty, Renaissance humanism and philosophy, but also with Renaissance theories of art. The focus of the collection is on topics such as humanist learning, humanist moral thought, the diffusion of humanism, Platonism, music and learning during the early Renaissance, and the modern system of arts in relation to the Renaissance. For this volume the author has written a new preface, a new essay, and an afterword.

An Introduction to Crime Scene Investigation serves to eliminate warped impressions influenced by the media, and clearly identifies and explains the crime scene investigative process, components, methods, and procedures.

A bold fantasy in the tradition of Roger Zelazny's Chronicles of Amber, The Merchant Princes is a sweeping new series from the hottest new writer in science fiction! Miriam Beckstein is happy in her life. She's a successful reporter for a hi-tech magazine in Boston, making good money doing what she loves. When her researcher brings her iron-clad evidence of a money-laundering scheme, Miriam thinks she's found the story of the year. But when she takes it to her editor, she's fired on the spot and gets a death threat from the criminals she has uncovered. Before the day is over, she's received a locket left by the mother she never knew-the mother who was murdered when she was an infant. Within is a knotwork pattern, which has a hypnotic effect on her. Before she knows it, she's transported herself to a parallel Earth, a world where knights on horseback chase their prey with automatic weapons, and where world-skipping assassins lurk just on the other side of reality - a world where her true family runs things. The six families of the Clan rule the kingdom of Gruinmarkt from behind the scenes, a mixture of nobility and criminal conspirators whose power to walk between the worlds makes them rich in both. Braids of family loyalty and intermarriage provide a fragile guarantee of peace, but a recently-ended civil war has left the families shaken and suspicious. Taken in by her mother's people, she becomes the star of the story of the century-as Cinderella without a fairy godmother. As her mother's heir, Miriam is hailed as the prodigal countess Helge Thorold-Hjorth, and feted and feasted. Caught up in schemes and plots centuries in the making, Miriam is surrounded by unlikely allies, forbidden loves, lethal contraband, and, most dangerous of all, her family. Her unexpected return will supercede the claims of other clan members to her mother's fortune and power, and whoever killed her mother will be happy to see her dead, too. Behind all this lie deeper secrets still, which threaten everyone and everything she has ever known. Patterns of deception and interlocking lies, as intricate as the knotwork between the universes. But Miriam is no one's pawn, and is determined to conquer her new home on her own terms. Blending the creativity and humor of Roger Zelazny, the adventure of H. Beam Piper and Philip Jose Farmer, and the rigor and scope of a science-fiction writer on the grandest scale, Charles Stross has set a new standard for fantasy epics. The rewards of carefully chosen alternative investments can be great. But many investors don't know enough about unfamiliar investments to make wise choices. For that reason, financial advisers Larry Swedroe and Jared Kizer designed this book to bring investors up to speed on the twenty most popular alternative investments: Real estate, Inflation-protected securities, Commodities, International equities, Fixed annuities, Stable-value funds, High-yield (junk) bonds, Private equity (venture capital), Covered calls, Socially responsible mutual funds, Precious metals equities, Preferred stocks, Convertible bonds, Emerging market bonds, Hedge funds, Leveraged buyouts, Variable annuities, Equity-indexed annuities, Structured investment products, Leveraged funds The authors describe how the investments work, the pros and cons of each, which to consider, which to avoid, and how to get started. Swedroe and Kizer evaluate each investment in terms of: Expected returns Volatility Distribution of returns Diversification potential Fees Trading and operating expenses Liquidity Tax efficiency Account location Role in an asset-allocation program Any investor who is considering or just curious about investment opportunities outside the traditional world of stocks, bonds, and bank certificates of deposit would be well-advised to read this book.

Newly released from prison after serving a three-year term, Johnathan Marcello just wants to get his head straight, but he's the only one who believes he can do it. Stepping into her mother's shoes is the very last thing on Catherine Marcello's mind, but it's already too late and she's got her own games to play. The spotlight wasn't in Andino Marcello's plan, but the Capo might not be given a choice when Cosa Nostra starts looking for la famiglia's next boss.

Much has been written about money-how to invest, save, become a millionaire, get out of debt, find financial freedom, change the monetary system, manage a business, hedge or save taxes. So what makes this book stand out from those already in the bookshops? Written for lay reader and expert alike, 30 Lies is a response to a newly emerging trend, where peoples' interest in money is not just to try and make more of it. But to understand better the causes of the increasingly contradictory money world they find themselves in. Some of the issues: income inequity, increasing stress in making ends meet, decay of social systems, evaporation of pensions, polarisation of wealth, third-world indebtedness, Enrons and more. This book promises a simple understanding of these issues. But it goes further. This book not only exposes misleading flaws and "lies" in many universally accepted and unquestioned assumptions about money-it dissolves them! Things they didn't say after reading this book: "Anyone interested in the truth must buy this book." George W. Bush "This book has been very helpful. Now I know for sure there is nothing in the world more important than money." Deepak Chopra "Great book-turns economics on its head." soroS egroeG "This explains it-why God has gone bankrupt and we're still in business." Pope John Paul II "Peter Koenig-They should lock him up and throw away the key!" Dermot Fitzpatrick

Ciro Donati was many things: My father's most valued and trusted soldier. My brother's best friend and second in command. And the only man I would give up everything for. I fell hard for the Mafioso at the tender age of eleven. This beast of a man who I knew made people disappear-and probably enjoyed every second of it-was also the sixteen-year-old boy who had picked me up after I'd fallen flat on my face during my dance recital and told me I was the best ballerina he'd ever seen. He's watched over me, protected me like I was the most precious thing in the world to him. And then he sent me away. Scarlett

Vitucci was many things: The daughter of the biggest Cosa Nostra boss from New York to Chicago. The sister of the man I would gladly take a bullet for. And the only woman I would ever love. Sending her away was the hardest thing I've ever done, but I didn't deserve her or her love. For three years I stayed away, ignoring the gnawing ache that her absence left in my chest. Now, she was back and fighting what I felt for her was impossible. Letting her go had been a huge mistake. One I would never repeat.
