NATIONAL BESTSELLER "Terrific." — BEN SHAPIRO "Outstanding." — DANA LOESCH The Left is on the attack, and the war for our country is at a crucial tipping point. Liberals know they're within reach of radically transforming America. They don't like the U.S. Constitution. They're allergic to Americans' "gun culture." They find our faith and our devotion to family distasteful. And our commitment to liberty positively sends them into a panic. As soon as the Democrats get power anywhere, they stand ready to throw our God-given rights under the bus of political correctness, transgender insanity, and socialism (the economic system that always promises equality and utopia, but somehow always delivers resentment, poverty, and decay). So how can we tip the momentum back in our favor? How can we fight effectively for freedom, the U.S. Constitution, limited government, faith and family, and the survival of the American Republic? Liz Wheeler to the rescue! The popular host of One America News Network's "Tipping Point with Liz Wheeler" is a brilliant and highly effective debater who shows how we can go on the rhetorical attack against the Left—and win—with a multi-technique program for catching the Left in their inconsistencies and under-handed schemes and skewering them for their bold-faced lies. In Tipping Points: How to Topple the Left's House of Cards, Liz Wheeler identifies the five "Tipping Points" where liberals are poised to win, trains you in her proven debating techniques, and deputizes you to take up arms in the fight for our nation's heart and soul. It's training you need right now, today. Our country is at a tipping point. And make no mistake—if the Left isn't defeated, they're taking down America.

A Winner of People Magazine's Best Books for Fall 2019, New York Times bestselling authors Barry Lyga and Morgan Baden have teamed up for the first time to create a novel that's gripping, terrifying and more relevant every day. Cassie McKinney has always believed in the Hive. Social media used to be out of control, after all. People were torn apart by trolls and doxxers. Even hackers — like Cassie's dad — were powerless against it. But then the Hive came. A better way to sanction people for what they do online. Cause trouble, get too many "condemns," and a crowd can come after you, teach you a lesson in real life. It's safer, fairer and perfectly legal. Entering her senior year of high school, filled with grief over an unexpected loss, Cassie is primed to lash out. Egged on by new friends, she makes an edgy joke online. Cassie doubts anyone will notice. But the Hive notices everything. And as her viral comment whips an entire country into a frenzy, the Hive demands retribution. One moment Cassie is anonymous; the next, she's infamous. And running for her life. With nowhere to turn, she must learn to rely on herself — and a group of Hive outcasts who may not be reliable — as she slowly uncovers the truth about the machine behind the Hive.
