Drilling Fluids Engineer Resume Example Halliburton Baroid ...
In geotechnical engineering, drilling fluid, also called drilling mud, is used to aid the drilling of boreholes into the earth. Often used while drilling oil and natural gas wells and on exploration drilling rigs, drilling fluids are also used for much simpler boreholes, such as water wells. One of the functions of drilling mud is to carry cuttings out of the hole. The three main categories of drilling fluids are: water-based muds, which can be dispersed and non-dispersed; non-aqueous muds, usua

Drilling fluid - Wikipedia
