Economic And Commercial Geography Of India

Economic geography takes a variety of approaches to many different topics, including the location of industries, economies of agglomeration (also known as "linkages"), transportation, international trade, development, real estate, gentrification, ethnic economies, gendered economies, core-periphery theory, the economics of urban form, the relationship between the environment and the economy (tying into a long history of geographers studying culture-environment interaction), and globalization.

Economic geography - Wikipedia

The economic geography personified has a nature, just as any human being has a peculiar nature or the psychological tendency. As says H.J. Mackinder, the geography is a science, arts and philosophy by nature. So, it follows that "the economic geography" being a sub-discipline in the subject of the geography is a science, arts and philosophy, too.
