This book supports students preparing for the Edexcel GCSE exam. The practice papers in the book are carefully modelled after past papers and specifications of exam board to ensure that the papers as a whole provide a rich and varied practice to meet all requirements of GCSE mathematics with an appropriate difficulty. Papers are designed to teach students the most easily applicable, reusable and fastest solutions to typical problems, and utilise problems which target areas of maths which students typically forget under the pressure of an exam. Solutions provided have been reviewed by many students to ensure that they are easily understandable while being the fastest and most re-applicable.

A complete course for GCSE, this text contains clear explanations of key ideas, graded exercises, worked examples, past paper questions and practice exam papers. Answers are also included. The Foundation course is targeted towards lower ability students.

Intending to help students revise the key topics they need to brush up on, this work includes test yourself diagnostic questions, worked examples, practice questions and summaries on important topics, and practice examination papers.

Intending to help students revise the key topics they need to brush up on, this work includes "test yourself" diagnostic questions, worked examples, practice questions and summaries on important topics, and practice examination papers.
