The DuraFon 1x system allows you to add additional bases, and therefore more than one line. To add additional base units, first register all handsets to the primary base originally used in the system. Now get an administrator handset (ID 11, or 12) and the additional base unit you plan to add. First power-up that base for at least 15 seconds.

EnGenius DuraFon 4X User manual 1.1

DuraFon 1X Help Note If a DuraFon performance has degraded for no apparent reason, and replacing the battery in the handset does not solve the problem, try resetting the base system and handsets. Note that once the base system and handsets are reset, you will have to re-register the handset(s) to the base system to resume the operations.
