English as a second language - Statistics Canada

English as a second language is a common phrase which has related acronyms, including ESL, which means "English as a Second Language". This is most often used in a country where English is the primary language EFL, which means "English as a Foreign Language".

Since it was first established in the 1970's the Applied Linguistics and Language Study series has become a major force in the study of practical problems in human communication and language education. Drawing extensively on empirical research and theoretical work in linguistics, sociology, psychology and education, the series explores key issues in language acquisition and language use. English as a Second Language learners are now a considerable and increasing part of the mainstream of urban schools in English-speaking countries. Beyond the learning of English, this development raises broader questions of language as a medium of education in a multilingual, multicultural environment. Drawing on their experience as researchers

and educators in Australia, Canada and England, the authors of *English as a Second Language in the Mainstream* present an up-to-date account of advances in theory and practice. Their analysis of system-wide provision however, suggests that a truly responsive educational vision is lacking: government policy is inadequate, educational practices for ESL students are either underdeveloped or poorly coordinated with practices for other students, and the rhetoric of reform fails to engage significantly with issues of teaching and resources. The authors argue towards a more comprehensive vision which can acknowledge the relation between issues concerning ESL students and issues concerning the educational system as a whole, which can coordinate reforms in ESL education with general reforms, which can explicitly and systematically integrate language learning and content learning, and which can build more positively on the multilingual and multicultural nature of modern education for all students.

This volume provides an up-to-date and comprehensive coverage of second language learning. The focus throughout the book is primarily on language learning, but each chapter also discusses the implications for teaching and assessment, thus informing both understanding and practice. The book contains nine sections, which aim to organise and reflect different dimensions of the diverse and complex scope of learning English as a second or additional language. Four themes which permeate the chapters are: learning and learners; learning and language; learning and language development; learning and learning context. The 36 chapters are up-to-date and

This guide examines the concepts that most often confound ESL students, whose confusion can generally be reduced to one very basic question: Why does English work that way? Focusing on the grammar of conversational speech, the book goes beyond simple description of the parts of speech, tenses and modes, and other topics of instruction to consider the cultural differences in language use (for native speakers of Japanese, for instance, the painting may be on the wall—but the wall is also on the painting) and even the neuroscience of our speech patterns. With 36 illustrations, an annotated bibliography and list of online resources, a glossary, and end-of-chapter exercises, this book equips instructors and advanced students to explain everyday language choices that stymie non-native speakers. Instructors considering this book for use in a course may request an examination copy [here](#).

This text is designed to cater to the ESL learning needs of adult learners who have basic exposure to the English language. Teaching English to Second Language Learners in Academic Contexts: Reading, Writing, Listening, and Speaking provides the fundamental knowledge that ESL and EFL teachers need to teach the four language skills. This foundational text, written by internationally renowned experts in the field, explains why skills-based teaching is at the heart of effective instruction in English for academic purposes (EAP) contexts. Each of the four main sections of the book helps readers understand how each skill—reading, writing, listening, and speaking—works and explains what research has to say about successful skill performance. Pedagogically focused chapters apply this information to principles for EAP curriculum design and to instructional activities and tasks adaptable in a wide range of language-learning contexts. Options for assessment and the role of digital technologies are considered for each skill, and essential information on integrated-skill instruction is provided. Moving from theory to practice, this teacher-friendly text is an essential resource for courses in TESOL programs, for in-service teacher-training seminars, and for practicing EAP teachers who want to upgrade their teaching abilities and knowledge bases.

second language writing, presenting chapters that collectively address a range of issues that are important to new teachers at the post-secondary level. The 13 chapters provide scholarly visions, insight, and interpretation, oriented toward explaining the field of teaching academic writing to non-native speakers. The book is designed to provide foundational content-knowledge in this area, with each chapter authored by recognized experts in the field. In addition to helping train new teachers, the book will serve as an updated reference book for practicing teachers and scholars to consult.

Reflecting the internationalization of the field of second language writing, this book focuses on political aspects and pedagogical issues of writing instruction and testing in a global context. High-stakes assessment impacts the lives of second language (L2) writers and their teachers around the world, be it the College English Test in China, Common Core-aligned assessments in the U.S., English proficiency tests in Poland, or the material conditions (such as access to technology, training, and other resources) affecting a classroom. With contributions from authors working in ten different countries in a variety of institutional contexts, the chapters examine the uses and abuses of various writing-related assessments, and the policies that determine their form and use. Representing a diverse range of contexts, methods, and disciplines, the authors jointly call for more equitable testing systems that consider the socioeconomic, psychometric, affective, institutional, and needs of all students who strive to gain access to education and employment opportunities related
